[00:08:56] House will come to order. Members, please take your seats. Head page. The House is now in session. All persons now entitled to privileges of the floor, please retire to the gallery.

[00:09:14] The members will rise and be led in prayer by Pastor Stephen Smith Cobbs, Trinity Presbyterian Church Herndon, and remain standing for the Pledge of Allegiance to the Flag of the United States of America, which will be led by the Delegate from Alexandria, Delegate Herring. Together, let us pray. O Holy One, creator of us all and source of all that is good, We gather here in this House as diverse people, united in the common purpose of faithfully serving the people of the Commonwealth of Virginia.

[00:09:51] On this President's Day, help us to heed the wisdom of our elders, especially that of Presidents George Washington and Abraham Lincoln. May our earnest prayer be the same as President Washington's, that God would most graciously be pleased to dispose us all to do justice and to love mercy.

[00:10:19] Though we do not share the same opinions about legislation, help us remember, as President Lincoln wrote, we are not enemies, but friends, that we might seek to be led in our work by what he called the better angels of our nature.

[00:10:40] Move this body to act as an instrument of unity, building bridges across differences, guided by that commandment shared by every major religion, that we love our neighbor. May we seek justice for all,

knowing that justice is what love looks like in public.

[00:10:59] Let our words and our actions be respectful, our deliberations be fruitful, and our shared focus be on the common good for all who live in this commonwealth. Amen. Amen.

[00:11:14] The members will answer the roll call by indicating their presence on the electronic voting board.

[00:12:08] The clerk will close the roll. Mr. Speaker, a quorum is present. Motions and resolutions under Rule 39 pursuant to the provisions of Rule 40 are now in order. Does the clerk have any announcements or communications?

Delegate from Fairfax, Delegate Shen. Thank you, Mr. Speaker. I rise for the point of an introduction. Delegate has the floor. Thank you, Mr. Speaker.

Reverend Stephen Smith Cobbs has served as pastor of Trinity Presbyterian Church in Herndon since 1997, having previously served two pastorates in his native Texas. He graduated from Austin College and Princeton Theological Seminary.

Reverend Smith Cobbs also serves on the board of directors for Cornerstones and has served on the governing boards of Next Church in Virginians Organized for Interfaith Community Engagement or Voice.

[00:13:17] And he and his wife Paula met in college and have one adult son, Philip. Philip and his wife Sarah live in Sterling, Virginia. And Reverend Smith Cobbs will be retiring this year in November and looks forward to continuing to serve his community after his retirement from full-time ministry. I hope my colleagues will join me in offering a warm House welcome to Reverend Stephen Smith-Cobbs.

Mr. Speaker, I know there are others who claim status, but we know VSU is the OG. The Greater Petersburg Area Alumni Association was founded in March of 1914.

[00:14:55] Through mentorship, scholarship, and unwavering commitment, the Greater Petersburg Area Alumni Association exists to empower the next generation of students and strengthen their alma mater. Mr. Speaker, while I have the floor and seeing today is President's Day, I would be remiss if I failed to note that VSU President McMola Abdullah just celebrated his 10th anniversary as president of our university.

[00:15:17] Mr. Speaker, members of the House, please join me in giving the VSU Greater Petersburg Area Alumni Association a warm House welcome.

Mr. Speaker, we reached out to an organization called Arts Fairfax, and they put us in touch with the art studio these kids work with. If you've been able to be up on the ninth floor near my office, between Delegate Watt's office and mine and outside my office, We have displayed some of these talented young people's fabulous pieces of art.

[00:18:37] They are all Virginia landscapes, and you will be enormously impressed. They've come here today to come see their art on public display and to see their government in action, and I hope you'll join

me in giving them a warm house welcome. Welcome. Welcome to the Capitol today.

[00:19:00] The delegate from Henrico, Delegate McQuinn. Thank you, Mr. Speaker. Mr. Speaker, I rise for an announcement. The delegate has the floor. Thank you, Mr. Speaker. Once again, we have been announcing this over the last couple of weeks, and that is the 18th annual Capitol Square Classic House vs. the Senate.

[00:19:18] February the 23rd at 5 p.m. the doors are open, at 7 p.m. tip-off at the Siegel Center. But I'm standing to ask individuals who are going to make a contribution, and I'm hoping that it's all of us, that you would join us for a family-friendly competition benefiting cancer research at the Massie Comprehensive Cancer Center.

[00:19:44] And we will come that day to play or cheer. So please start sending your contributions in, again, for the Massie Comprehensive Cancer Center that we all might be able to fight against the disease that affected and impacted all of us. Thank you, Mr. Speaker.

[00:20:00] Delegate from Chesterfield, Delegate Maida. Thank you, Mr. Speaker. I rise for a motion and a resolution. The delegate has the floor. I move to take out of order commending resolution H.R. 115, commending the International Rett Syndrome Foundation.

[00:20:22] That resolution can be found on page 171 of today's calendar. Clerk will vote for the resolution. House resolution 115, commending the International Rett Syndrome Foundation. Mr. Speaker, I move adoption and I request to speak to that resolution.

[00:20:37] The delegate has the floor. Firstly, Mr. Speaker, I appreciate your giving me leave to individually recognize two Rett adults and their parents who are in the gallery and are in support of this commending resolution they are vivian rice and her father jim as well as britney perrin turner and her mother edith warner ward turner i asked them to stand as they are able the international ret syndrome foundation is a leading research family support and advocacy organization for individuals with ret syndrome a rare disease that affects approximately one in 10,000 girls and even fewer boys.

[00:21:17] Typically, those with Rett syndrome are unaware until around two years old because they often develop typically for the first few months of life, and only later do they lose the ability, some of them, to walk, talk, and have purposeful use of their hands. IRSF works to address the full spectrum of the disorder while providing a voice for patients and their families.

[00:21:39] Mr. Speaker, in 2017, my husband, daughter Brooke, and I became one of those families when a finger prick sealed our fate. Brooke had Rett syndrome, and I had to Google it. I found myself searching for answers that didn't exist.

[00:21:58] Then I discovered IRSF, Mr. Speaker. Advocating with the Organization for Accessibility, Research Funding, and Better Quality of Life gave my family and many more hope that seemed so far out of reach. After years of fighting with them for the good fight, in 2021, IRSF asked me to join its board, and later I was to serve as its interim CEO.

[00:22:26] In the very short interim between that honor and actually starting, my daughter Brooke succumbed to Rett Syndrome. She was only five years old. As IRSF does for so many, they helped me navigate the unimaginable for parents with their life after RET group. Mr. Speaker, IRSF supports those

with RET and their caregivers from diagnosis to death and beyond. They have fought for treatments to aid in the quality of life

[00:23:04] of those with RET. They advocate for those who may not have a voice, but have a lot to say. I understand that I am not the only one who supports the cause. It is my understanding that our esteemed colleague, Delegate Marcus Simon, has supported the work of IRSF as well.

[00:23:24] As anyone knows who has had the unbearable task of watching their child be lowered to the ground and had to fight every parental instinct in their body by walking away one step at a time, grief is not temporary.

[00:23:42] But, Mr. Speaker, I will tell you, it is a little more tolerable knowing that IRSF is working day and night to find treatments and prayerfully one day a cure for Brooks Rett sisters and brothers.

[00:23:58] Therefore, Mr. Speaker, with my heart full of gratitude, I enthusiastically move that the House of Delegates join me in expressing admiration for the International Rett Syndrome Foundation's ongoing work to promote the health and wellness of Rett Virginians, and I so move to adopt the resolution.

[00:24:20] Thank you, Mr. Speaker. Delegate from Chesterfield, Delegate Mayden moves that the House adopt H.R. 115, commending the International Rett Syndrome Foundation. All those in favor say aye. Aye. All those opposed, no. Commending House Resolution 115, commending the International Rett Syndrome Foundation is adopted.

[00:24:39] Congratulations.

[00:25:54] I hope you'll join me in giving them a warm house welcome today. Welcome, welcome, Girl Scouts. I have a Girl Scout at home myself, but she would be in here with a whole lot of cookies right now.

[00:34:23] Thank you, Mr. Speaker. Mr. Speaker, I respectfully ask that we return to the first morning hour for an introduction. Delegate has the floor. Thank you, Mr. Speaker. Mr. Speaker, I have the pleasure of introducing the honorable men and brothers of Iota Phi Theta Fraternity, Incorporated, and I ask them to please stand.

[00:34:43] Mr. Speaker, it's my distinct honor today to welcome to the Virginia House of Delegates the brothers of IOTA Phi Theta Fraternity Incorporated. Founded on September 19th, 1963, during the height of the Civil Rights Movement, 12 visionary men committed themselves to something greater than the movement.

[00:35:00] They chose not simply to witness history, but to shape it through service, scholarship, and principled leadership. For over six decades, IOTA Phi Theta Fraternity Incorporated has impacted our nation and communities around the world through its steadfast commitment to service, leadership development, and academic excellence. IOTA men stand firmly on the shoulders of those who came before them, continuing to move society forward with purpose while holding fast to their motto, build a tradition, not rest upon one. Rooted in the core values of scholarship, leadership, citizenship, fidelity, and brotherhood, the fraternity inspires its members to lead by example and serve with compassion in every

[00:35:40] community they touch. Today, these men stand in our Capitol not only as citizens, but as leaders and mentors and catalysts for change. Their presence reminds us that progress belongs to those who choose action over comfort and service over silence. Mr. Speaker, I ask for the House to join me in giving them a warm House welcome. Welcome. Welcome to the Capitol today. Delegate from Virginia Beach, Delegate Askew. Thank you, Mr. Speaker. Mr. Speaker, I ask that we return to the first morning for the purpose of an introduction. Delegate has the floor.

[00:36:20] Thank you, Mr. Speaker. Mr. Speaker, I'd like to welcome to the Gallery of Delegation of Students and Campus Leaders, representing the 28-member institutions of the Council of Independent Colleges of Virginia. If they're here, can they please stand? Today, these visitors participated in the Thanks for Tag Day, visiting many of our members this morning to share the importance of the Virginia Tuition Assistance Grant on their ability to afford higher education here in the best state for higher education in the nation.

[00:36:45] Thirty-eight members of the General Assembly are graduates of one of these member schools. The impact that private colleges have on the landscape of higher education in the Commonwealth is profound, and while these enroll a third of our undergraduate students, the Virginia Tuition Assistance Grant expenditure is less than 4% of general funds spending for higher ed, an incredible value for the state.

[00:37:04] These schools retain talented Virginia students here in the Commonwealth and attract talented out-of-state students who often remain here after graduating and become valued members of our communities. Hope a simple little body to please welcome them here to the gallery today. Thank you, Mr. Speaker. Welcome. Welcome to the Capitol today.

[00:37:27] Delegate from Virginia Beach, Delegate Fagans. Thank you, Mr. Speaker. I ask that we return to the first morning hour for the person of the introduction. Delegate has the floor. Thank you, Mr. Speaker. In the gallery today, we have employees of Virginia National Gas. If they are here, I would ask for them to stand. Many of them that are here have served southeastern Virginia for over 175 years, and it is headquartered in House District 97.

[00:37:49] Additionally, the visit is being led today by N. Rappaport, an employee resource group supporting African-American employees throughout Virginia National Gas as they help to celebrate Black History Month. Please join me in extending them a warm House welcome. Welcome. Welcome to the Capitol today.

[00:38:12] Clerk will call the calendar. Calendar for today, Monday, February 16th, day before crossover. 400 pieces of legislation to be dispensed with today in a myriad of categories. First category, Senate bills on third reading uncontested calendar.

[00:38:28] Uncontested third reading debate final passage for Senate Bill 86 is now before you. is legislation to amend and reenact sexual code of virginia later to purchase of handguns or other weapons of certain officers department of state police legislation reporting committee on public safety delegate from fairfax delegate simon thank you mr speaker uh house bill 86 is identical to delegate cornett's house bill 1300 allows a service member uh rather allows the spouse of a deceased service member to purchase their service uh weapon for one dollar and we move that that the bill pass. Next up in the uncontested third block is Senate Bill 153. Top of page two

[00:39:06] is legislation to amend and reenact portion of the Acts of Assembly of 1958, which provided a charter for the town of Towswell in Towswell County, related to town manager. This legislation was reported committee on county, cities, and towns. Delegate from Fairfax, Delegate Helmer. Thank you, Mr. Speaker. Senate Bill 153 is the cognate of House Bill 62 by Delegate Moorfield. They're identical. I hope it is the will of the body to pass the bill.

[00:39:27] Next up in the block is Senate Bill 179, legislation to amend and reenact portions of the Acts of Assembly of 2009, which provided a charter for the city of Williamsburg relating to elections, finance director, and city budget. Legislation reporting committee on county, cities, and towns. Delegate from James City County, Delegate Anderson.

[00:39:45] Thank you, Mr. Speaker. Mr. Speaker, SB 179 is the identical cognate of HB 552, and is a simple bill requested by the city of Williamsburg to make three minor amendments to its existing charter. I move that the bill pass. And the last bill in this block, third reading uncontested, Senate Bill 317, which seeks to amend and reenact Section of the Code of Virginia relating to inter-jurisdictional law enforcement agreements, behavioral health co-response teams.

[00:40:09] This legislation will support committee on public safety. From Fairfax, Delegate Watts. DELEGATE WATTS: Thank you, Mr. Speaker. Senate Bill 317 is the cognate of my bill, HB 248, that passed this body unanimously. It provides that inter-jurisdictional law enforcement agreements may allow for law enforcement and Behavioral Health Co-Response Teams to respond to calls in multiple jurisdictions.

[00:40:33] I believe it would be the pleasure of the body to ingress the bill and pass it on to pass the bill. Excuse me, Ms. Speaker. Shall the bill pass? Shall the bills pass? Clerk will close the row.

[00:40:51] Ayes 98, no 0. Ayes 98, no 0. The bills pass. Ms. Speaker, members of the House, we continue on. New category, Senate bills on third reading regular calendar. 16 bills, I believe, in this category, beginning with top of page three of the print and calendar, Senate Bill 27, which is legislation to amend the Code of Virginia relating to firearm industry members, standards of responsible conduct, civil liability, legislation reporting on public safety with an amendment nature of substitute.

[00:41:20] Delegate from Fairfax, Delegate Helmer. Thank you, Mr. Speaker. Mr. Speaker, I move the committee substitute. Shall the committee substitute be agreed to? All those in favor, say aye. Aye. All those opposed, no. The committee substitute is agreed to the delegate from Fairfax. Thank you, Mr. Speaker. With the committee substitute, this is identical to House Bill 21 that we passed out of this body on a vote of 62 to 35 that provides industry standards for firearms manufacturers and dealers i hope it is the

will of the body to pass the bill then from patrick county delegate william mr speaker question for the patron will the delegate yield i'm happy to yield for a question mr speaker

[00:41:55] yes mr speaker if a small gun shop owner in rural virginia follows every federal and state firearms law on the books runs every background check keeps every record turns away every suspicious buyer Can he still be sued under this bill?

[00:42:12] Mr. Speaker, I'd answer the delegate that if a firearms dealer operates responsibly and within the laws of Virginia and doesn't provide a public nuisance that results in a danger to the community, they're going to be safe under this bill. And if they act in ways that make our communities dangerous and result in mass shootings, they could be held liable.

[00:42:30] Mr. Speaker, speaking of the bill. Delegate, ask the floor. So it sounded like the answer was yes, Mr. Speaker. A dealer who does everything right can still be sued under this bill, not just by the attorney general, by any local prosecutor, any private plaintiff, all at the same time for unlimited damages with no intent required, no safe harbor for following the law.

[00:42:52] Congress settled this question 20 years ago. The Protection of Lawful Commerce and Arms Act passed with bipartisan support because a coordinated litigation campaign tried to sue the firearms industry into extinction. Congress said no, this bill is an end run around those federal protections.

[00:43:10] It manufactures a state law violation so the lawsuits Congress banned can start right back up here in Virginia. And the target is not the bad actor, Mr. Speaker. That's what we know about all of these gun bills this year. The target is the entire commercial infrastructure surrounding the Second Amendment.

[00:43:29] The small dealer in Patrick County, my home county, the distributor who supplied them, the manufacturer who made the product, every link in the chain that allows a law-abiding Virginia to exercise a constitutional right. If you make it too expensive to sell, make it too risky to distribute, make it too dangerous to manufacture, and you don't even need to ban a single firearm. You just have to make sure nobody can buy one. This is the purpose of this bill, along with a number of firearm bills, and I urge

[01:11:51] Mr. Speaker. Delegate from Hanover, Delegate White. Thank you, Mr. Speaker. Speaking to the bill. Doug has the floor. Thank you, Mr. Speaker. Let's be clear what this bill does. And many of us, no dental hygienist have dental hygienists in our family. This bill is a dollar-driven bill, Mr. Speaker.

[01:12:09] This allows those folks to now hire dental assistants at half the pay that a dental hygienist makes. A dental hygienist has to go to school for two years, have a state certification and a state license. The cost to go to dental hygiene school is about $14,000 to $16,000 a year.

[01:12:29] My answer would be to produce more dental hygienists. The reason we don't have that many dental hygienists, Mr. Speaker, is because a lot of our higher ed schools want to produce more dentists. A dentist tuition is anywhere from $55,000 to $65,000 a year.

[01:12:49] So again, Mr. Speaker, please don't lower patient care standards. Please support these dental hygienists. We've heard from many dental hygienists. The dental hygienists I know in my family fear coming down here and speaking to committee because of retaliation from their employer.

[01:13:09] So, Mr. Speaker, please stand with these dental hygienists, and I would encourage my colleagues to continue to support the industry as opposed to allowing a dental assistant, again, at half the pay, and please vote no on the bill.

[01:14:50] He did it, that's great. Patrick County, Delegate Williams. Yes, Mr. Speaker, speaking to the bill. It makes it easier, but go ahead. Speaking to the bill, this bill is incredibly expensive, Mr. Speaker. This bill increases unemployment benefit duration to a flat 26 weeks, and the Department of Planning and Budget estimates it will cost the Unemployment Insurance Trust Fund $82.6 million every year.

[01:15:08] The Unemployment Insurance Trust Fund is funded by employees and employers, not the general fund. So that's $82.6 million every year from the non-general funds. That cost falls directly on Virginia employers and employees.

[01:15:24] It's an average tax increase of $23.15 per covered employee, and the Virginia Employment Commission has admitted it doesn't even collect the data needed to accurately project what this will actually cost. We're raising taxes on every employer in the Commonwealth based on a guess.

[01:15:40] I'd urge a no vote. Shall the bill pass? Close row. Ayes, 63, no's 35.

[02:52:33] The delegate from Washington, Delegate O'Quinn. Thank you, Madam Speaker. I move the committee substitute. Shall a substitute be agreed to? All those in favor say aye. Those opposed, no. Substitute's agreed to. Delegate O'Quinn. Thank you, Madam Speaker. With the substitute, this bill allows campaign accounts to have up to two depositories, or they can just have one.

[02:52:52] And it also has a delayed effective date of January 1st of 2027, so the Department of Elections can implement this in between the 26th and the 27th election cycles. It's a move that we engross the bill and pass it to its third reading. Next up in the block is House Bill 1189.

[02:53:09] This is legislation to amend and reenact different portions of the Code of Virginia, this time relating to emergency services and disaster law, a declaration of state of preparedness. Legislation report committee on public safety with amendment nature substitute. The delegate from Washington, Delegate O'Quinn. Thank you, Madam Speaker. I move the committee substitute.

[02:53:25] Shall the substitute be agreed to? All those in favor say aye. Aye. Those opposed, no. Substitutes agree to. Delegate O'Quinn. Thank you, Madam Speaker. House Bill 1189 would enhance Virginia's readiness by establishing a new, slightly lower declaration level known as a state of preparedness, providing the Commonwealth with the ability to proactively mobilize and respond to imminent disaster or emergency.

[02:53:47] The discussion we had in the committee and the subcommittee level was essentially that a lot of times we don't issue a state of emergency until a day or two ahead of an impending disaster. And then once that emergency is, in fact, issued, a lot of times it can cause panic and whatnot.

[02:54:04] And then if we end up, like we did a few weeks ago, having back-to-back states of emergency, then they sort of lose their impact after you have three or four in a month. So this slightly lower level allows for us to have a state of preparedness. And so I would engross the bill and pass it to its third reading.

[02:54:20] Next up in the uncontested block is House Bill 1218, which seeks to amend and reenact Section Code of Virginia relating to employment of children, summer camps, legislation reported from the Committee on Labor and Commerce. The delegate from Fairfax, Delegate Delaney. Thank you, Madam Speaker. So currently, a teen staff member of a youth camp, so for reference, this was brought to me by a local Boy Scout, can instruct children, like 9- and 10-year-olds, how to light a campfire, but they can't actually demonstrate it because they're employed.

[02:54:48] So the 9- and 10-year-olds can light the campfire themselves after receiving that instruction, but not the actual teen employee. So this bill will correct this interpretation, and I hope it will be the will of the body to engross the bill and pass it to its third reading. House Bill 1224 is out of the block over to the regular calendar.

[02:55:03] Therefore, top of page 72, we come to House Bill 1231, which seeks to amend and re-enact two sections of the Code of Virginia relating to the Commonwealth Aviation Fund allocations. Legislation reported on transportation, then also by the Committee on Approves. The delegate from Fairfax, Delegate Delaney. Thank you, Madam Speaker.

[02:55:19] So House Bill 1231 adjusts the current funding allocations for the Commonwealth Aviation Fund from a 40-40-20 formula to a 50-40-10 formula. This was authorized in the budget last year, and it is working as intended, so I hope it is the pleasure of the body to engross the bill and move it on to its third reading.

[02:55:36] House Bill 1256 says legislation to amend and reenact the sections of the Code of Virginia related to cost-sharing adjustment mechanism for the recovery of fuel and purchase power costs by certain electric utilities. Report legislation reporting on labor and commerce from the amendment nature

substitute. The delegate from Fairfax, Delegate Shin. Thank you, Madam Speaker. I move the committee substitute.

[02:55:53] Shall the substitute be agreed to? All those in favor say aye. Aye. Those opposed, no. Substitutes agree to. Delegation. Thank you, Madam Speaker. The bill before us today directs the SEC to examine and make recommendations as they might deem necessary regarding the efficiency and efficacy, I'm sorry, the efficacy and sufficiency of fuel and purchased power cost risk mitigation practices by Phase I and Phase II utilities in their annual fuel factor proceedings.

[02:56:19] Madam Speaker, I move that the bill be engrossed and passed to its third reading. House Bill 1273 is legislation to amend and reenact portions of the Code of Virginia all related to transportation network companies' requirements, civil penalties. [02:56:41] Thank you, Madam Speaker. I move the committee substitute. Shall the substitute be agreed to? All those in favor, say. You're right. Madam Speaker, I apologize. That was moved out of the block over to the regular calendar. All right. Thank you. So now we come to House Bill 1276, so that is Delegate Watts' legislation, which seeks to amend and reenact Section of the Code of Virginia Land to health care providers, required to state for non-emergency health care services, legislation for Committee on Labor and Commerce with amendment to substitute.

[02:57:14] The delegate from Fairfax, Delegate Watts. Thank you, Madam Speaker. I move the committee substitute. Shall the substitute be agreed to? All those in favor say aye. Those opposed, no. Substitutes agree to. Delegate Watts. The committee substitute provides that health care providers upon request of a patient scheduled to receive non-emergency health care services will provide an estimate in good faith of the provider's standard charges and the possibility of what the patient will be liable for based on information supplied by the covered person.

[02:57:51] The statement will also state that it's just an estimate and that the amounts billed may differ depending upon changes in the scope of services and the health carriers' processing of the claim. I hope it will be the pleasure of the body to gross the bill.

[02:58:07] Pass it on to its third reading. Next up in the uncontested block is House Bill 1282. House Bill 1282 seeks to amend the Code of Virginia relating to licensed substance abuse treatment practitioners, licensure by endorsement, licensure without examination. Legislature for Committee on Health and Human Services with an amendment.

[02:58:43] The bill allows highly qualified professionals to earn a licensure by endorsement without repeating unnecessary exams while maintaining rigorous standards. I hope it will be the pleasure of the body to engross the bill and pass it on to its third reading. Over on page 74, we come to House Bill 1292. It seeks to repeal a portion of the Acts of Assembly of 2024 relating to temporary detention, certified evaluator, sunset repealed.

[02:59:06] Legislation report committing on health and human services with an amendment to nature substitute. The delegate from Newport News, Delegate Price. Thank you, Madam Speaker. I move the committee substitute. Shall the substitute be agreed to? All those in favor say aye. Aye. Those opposed, no. Substitute's agreed to. Delegate Price. Thank you. Madam Speaker, House Bill 1292 builds on the work we did in 2024 to establish a pilot program at the Commonwealth's sole psychiatric emergency department of its kind to allow specially trained clinicians to perform TDO evaluations on behavioral health patients when necessary, helping patients get the care they need sooner, and saving local officers nearly 6,000 hours in just one year.

[02:59:45] This bill would extend the project by one year to help get more data before we come back to ask for the sunset to be repealed. I ask that we would engross the bill and send it on to its third reading. House Bill 1298, next up in the block, seeks to amend and reenact portions of the Code of Virginia Related Issuance of Vacator for Victims of Human Trafficking.

[03:00:06] Legislative report committee for courts of justice for the amendment nature substitute. The delegate from Fairfax, Delegate Delaney. Thank you, Madam Speaker. I move the committee substitute. Shall assess it be agreed to? All those in favor say aye. Aye. Those opposed, no. Assess it is agreed to. Delegate Delaney. Thank you, Madam Speaker.

[03:00:21] This bill provides absolutely critical relief to survivors of human trafficking by allowing convictions against them to be vacated. If the conviction is a misdemeanor or nonviolent felony, these convictions can only be vacated by clear and convincing evidence of their trafficking status. I hope it is the pleasure of the body to engross the bill and pass it to its third reading.

[03:01:30] Those opposed, no. All right, that substitute's accepted. Delegate Thomas. We're all just getting back from a little bit of pizza, Madam Speaker. Madam Speaker, House Bill 1301 would simply expand the types of school employees that can help with insulin pump insertion.

The delegate from Powhatan. Delegate where? Thank you, Mr. Speaker. Would the patron yield for a question? Would the patron yield for a question? Yes, I yield. He yields. Thank you, Mr. Speaker. And I know we're under something of a timetable here.

[03:44:36] This is a very portentous piece of legislation. I've been reading through it. I've probably gotten about two-thirds of the way through the new language. And it deals with things like what localities can and cannot do, how the black market will be or illegal market will be regulated.

[03:44:56] Would the delegate give us at least a little bit more in terms of how this bill has added to the code or what new provisions broadly that there are? Again, I think it's a very significant piece of legislation.

[03:45:13] Thank you. Delegate for Fairfax. Mr. Speaker, I will say that we have had a number of years now where we've been perfecting this bill, and it's even, as you all can see here today, we've accepted the final amendments that came out of appropriation. And so we've even tinkered with it all the way up until today.

[03:45:32] It has come out of this. Also, it's been through a robust process with the cannabis, I think, with the Joint Commission on Cannabis on setting up this program.

[03:45:48] So what this bill really is is it's a reflection of all of the input from different stakeholders and from colleagues on this. But there's a lot in here. I think it might be better that you ask a specific question, but I can say right off the top, one of the biggest differences is now you don't, you cannot, the localities cannot opt out.

[03:46:12] It's a statewide program. Delphine Powell 10, Delegate Ware. Thank you, Mr. Speaker, and I appreciate the gentlemen responding to that one element of it. A second one has to do with those that then, assuming the legal market is set up in the format, in this essential format, what are the general provisions for those who operate outside the legal market but continue to sell in Virginia?

[03:46:41] It seems like there's a fairly lengthy section in here that deals with that. And I would say, let me say further, kind of in furtherance of the question, I recognize it's been a long process. There have been a lot of people who have been involved in this, and I know the gentleman has been intricately aware of it,

but those of us who have not served on the committees have not necessarily been party to all of these discussions.

[03:47:04] Thank you, Mr. Speaker. I would tell the delegate that, I mean, there's, again, there's so much in here, and it's, as you say, you're two-thirds of the way through. It's about 300 pages, but it's really all about setting clear rules on safety and testing, So there's a lot of good rules around that.

[03:47:24] It's rules on, you know, from things like making sure that children, that the product is impossible for kids to open and safety caps and things like the stores themselves would be very, there would only be 350 retail licenses given out statewide.

[03:47:45] They would be, they would not be, they would be kind of boring, I would say. they were they wouldn't have like neon they wouldn't be allowed to have all kinds of flashing lights and and when you come into the into a store you would have to show your ID you have to be 21 just to get in and then when you buy the product you'd have to be 21 again they'd show your ID again to buy the product it's if you've been to any of the medical if you've been any of the medical dispensaries they would look very much like that and 350 stores is It's similar to the amount of ABC.

[03:48:19] ABC has about 402 stores, so it's less density than ABC is. There's lots of rules on licensing and compliance. Adults could only have up to 2 ½ ounces of the drug.

[03:48:42] There's just a lot to it. I think it would be better if you just asked me more of a specific question, if there's something that concerns you. Mr. Speaker, I appreciate your indulgence on this. I do have one more question. There is a long section in there about tribal sales and the fact that the Commonwealth will recognize tribal operations as arising out of a sovereignty.

[03:49:08] Could you just give me a little bit more on how that would operate? Mr. Speaker. The intention behind free fishing days was and still is to spur interest among the people, especially our young people, in recreational fishing and to get outdoors.

[04:19:03] And this has proven to be very popular, Mr. Speaker. A direct effect of free fishing days has been to increase the number of people who buy licenses. Finally, fees derived from hunting and fishing sales and the accompanying federal matching dollars are a major component of DWR's funding.

[04:19:23] And for this reason, both DWR and VMRC agreed to increase the free fishing days from three to six days every year. Mr. Speaker, Mr. Speaker, I hope it will be the pleasure of the House to engross the bill and pass it on to his third reading.

I move the House adopt the Committee Substitute. Shall the Committee Substitute be agreed to? All those in favor say aye. Those opposed, no. The Committee Substitute is agreed to.

[04:24:19] Thank you, Mr. Speaker. House Bill 1396 creates a permit administered by the Department of Wildlife Resources to individuals and organizations that hunt certain species with dogs. It does not change any criminal laws or Virginia's right to retrieve statute. Instead, it establishes a structured permitting system to provide oversight and accountability.

[04:24:40] Mr. Speaker, I move that the bill be engrossed and move to the third reading. Delegate from Sussex, Delegate Waxman. Thank you, Mr. Speaker. I rise to ask the patron if he'll take a question. Would the delegate yield? Delegate will yield. Delegate will yield. Thank you, Mr. Speaker.

[04:24:55] Mr. Speaker, I grew up in a rural area that really values the traditions of dog hunting. It's something that I grew up with. Although I've not been able to dog hunt since I was in high school due to work constraints and time, I also would like to share some of those traditions with my grandson.

[04:25:11] My question is, in the future, if I take my grandson onto private land and we are still hunting without a dog and another hunt club runs dogs to me using dogs, if I shoot the deer, are we then guilty of violating this rule because we did not have a permit, because we did not plan on having the dog run to us?

[04:25:32] Delegate from Loudoun County, Delegate Martinez. Mr. Speaker, I would say to the delegate that as of right now, this bill does not change any statutes or laws that are currently in place. Thank you, Mr. Speaker, for the answer.

[04:25:49] The delegate from Middlesex, Delegate Hodges. Thank you for the time, Mr. Speaker. Will the delegate yield for a question? Will the delegate yield? Delegate will yield. Delegate will yield. Thank you, Mr. Speaker. I would ask the delegate, would this apply, this legislation apply to, say, a mom or a dad that takes their two kids squirrel hunting with a dog?

[04:26:09] Delegate from Laudan, Delegate Martinez. As I said, this does not apply to any existing statutes and laws. This has not changed those. So if you currently are going hunting for squirrels, you can still do it.

[04:26:26] The delegate from Scott County, Delegate Kilgore. Mr. Speaker, then, why are we even having the bill if it doesn't change any? Are you speaking to the bill? Yes, speaking to the bill. The delegate has the floor. I would ask why are we even have the bill if it doesn't change any current statute or laws?

[04:26:43] I was just quoting the gentleman. Thank you, Mr. Speaker. Wiley.

[04:26:58] The delegate from Middlesex, Delegate Hodges. Follow-up question, Mr. Speaker. Would the delegate yield? I would say that... Would the delegate yield for another question? Would the delegate yield for an additional question? I will yield. The delegate will yield.

[04:27:14] Thank you, Mr. Speaker. As I interpret this bill, it does apply to squirrel hunting. And anyone knows that if you have a good squirrel dog, It's going to run ahead and hunt ahead of the hunters, tree the squirrel, bark so you have this signal, then run ahead to tree the next squirrel.

[04:27:35] Because this applies to any fur-bearing animal that you're hunting, including squirrels, including rabbits, including all of those. It does not just say deer. So I'd ask the gentleman, since I believe it does apply to squirrel hunting, what would the cost for the license fees and the civil penalty be for someone that's taking his two kids out hunting squirrels and that dog runs on someone else's property?

[04:28:04] Delegate from Long Island County, Delegate Martinez. Mr. Speaker, I would say to the delegate that the permitting is estimated to be around $19, But that's going to be determined by the Department, the Department of Wildlife Resources, on what the bill, what the permitting is going to be.

[04:28:22] As far as the bill, it directs the department to set permit procedures, standards for dog identification, criteria for suspension or revocation, exemptions, and best practices to minimize conflicts. Violations will result in civil penalties, not criminal charges.

[04:28:41] Speaking briefly to the bill, Mr. Speaker. the delegate has the floor. Thank you, Mr. Speaker. I would urge everyone to not engross this and pass it to its third reading. There's a lot of ambiguity here. It's too broad and it affects far too many people and the traditions in our rural areas with dog hunting being a tradition in Virginia for over 400 years. Thank you, Mr. Speaker. The delegate from Arlington, Delegate Lopez. Thank you, Mr.

[04:29:09] Speaker. Speaking to the bill. Speaking to the bill, Mr. Speaker. Delegate has the floor. Thank Mr. Speaker, the Agriculture Chesapeake Natural Resources Committee dealt extensively with this bill during session so far. 42 states have banned the tradition of dog hunting. The rest of the states have significantly regulated how we dog hunt, except for the Commonwealth Virginia. Just last year, there were over 1,000 complaints from property rights owners who were upset because of the impact on their livestock, their crops, their peace of mind. It's becoming very aggressive in

[04:29:48] some parts of the state because this body has not acted. What this bill will do is it will, as the patron said, it will address how we regulate it through DWR. It does not affect right to retrieve. It does not affect public. We have several exceptions for fox hunting, for public lands, and we've had a very robust conversation about this. There is a need for regulation in Virginia. It's long past time that we take care of this, but it's also being done,

[04:30:26] but the details are being done by the experts at DWR. So I'm very happy about how we passed this bill in a bipartisan way at a subcommittee and at a full, and I thank the patron for the work he's done in making this bill a successful bill. Thank you, Mr. Speaker. Delegate from Rockingham, Delegate Wilk. Thank you, Mr. Speaker, would the gentleman yield for a question? Which?

[04:30:48] The patron, Lopez, the chair, will the person who's not the patron of the bill yield for a question? I'd be happy to yield with my friend from Rockingham. He'll yield. Thank you, Mr. Speaker. The gentleman cited over 1,000 complaints registered.

[04:31:05] Can he tell us how many actually resulted in a conviction? Delegate from Arlington, Delegate Lopez. Mr. Speaker, I would say to my friend, the delegate, that I don't believe there were. I can't say how many convictions because we don't have regs on this.

[04:31:22] there's nothing that you can actually be convicted for in many cases there's only one piece of the code that actually has something you can be be be cited for and that's for intentionally releasing your dogs onto someone's property but the fact is that's a very small piece of the code and it's very difficult to address because you don't often see someone intentionally releasing their their hounds and so this will actually address this we're leaving it to the experts we're leaving it to dwr and i think we're going to have a good bill and a good law at the end of the day. Thank you, Mr. Speaker. Shall the bill be engrossed and passed the third reading? All those in favor say aye. All those opposed, no. The bill's engrossed and passed the third reading.

[04:32:03] On page 121, we come to House Bill 1398, which is legislation that men reenacted sections of the Code of Virginia relating to the fetal and infant mortality review team established. The delegate from Fairfax, Delegate Simon.

[04:33:15] Mr. Speaker, will the delegate yield for a question? Will the delegate yield for a question? I do, yes, sir. Delegate, will you? Mr. Speaker, I would ask the delegate, I noticed that you asked us to reject the Health and Human Services Committee amendments and accept the Appropriations Committee amendments. I'm wondering if you could explain to us why that was necessary to do.

[04:33:34] The delegate from Prince William, Delegate Franklin. Thank you, Mr. Speaker. Mr. Speaker, I would answer by saying, by accepting the Appropriations Committee substitute, we essentially have redefined some definitions that were important, and we also amended some of the teams that would be requested to review the fetal infant mortality review team.

[04:34:00] Mr. Speaker, would the delegate yield for an additional question? Would the delegate yield for an additional question on this long day? I yield. The delegate would yield. Mr. B., I would ask the delegate if it's not true that she's actually more frightened of the appropriations chair than she is of the very friendly Health and Human Services committee chair.

[04:34:16] Mr. Speaker. The delegate has the floor. Mr. Speaker, I have great respect for both. I thank the delegate, Mr. Speaker. Shall the bill be engrossed and pass the third reading? All those in favor, say aye. All those opposed, no.

Delegate, sign. Mr. Speaker, members of the House, this is a bill to regulate iGaming here in Virginia.

[04:47:12] This is not a bill to bring iGaming to Virginia. iGaming is already here. iGaming is a $12 billion industry here in Virginia. There's $12 million in bets that are being placed every day on websites like Chumba Casino Online, fancy slots, all kinds of names.

[04:47:27] You think of it, you can do this online now. The problem is none of it's regulated, none of it's taxed. This bill would result in $2.7 billion in additional tax revenue for the Commonwealth of Virginia over the first five years of iGaming as a regulated industry. It would have age verification that would prevent folks under 21 from playing these games.

[04:47:45] It has a hold harmless fund. So out of that $2.7 billion in revenue that it generates, we're going to set aside money to protect the lottery, make sure the lottery isn't losing any money, Make sure that this is good money to help fund education here in the Commonwealth. It's got to hold harmless for casinos. Not that they necessarily need it, but to the extent we're going to cause a problem with casinos, they're covered as well.

[04:48:02] This isn't going to cost anybody any money. It will generate more revenue for the Commonwealth and for education. This bill has a reenactment clause on it. So if you're concerned that we're going too fast, this bill would have to come back either next year or later this session with all the fine-tuning that you'd like to see.

[04:48:18] That will be the bill of the body to engross the bill today, pass it on to its third reading so that we can start to regulate this industry and get it going the right way. [05:24:41] Additionally, the bill creates a notification system for the use of independent contracts to ensure that employee relationships are clearly established and prevent instances of wage theft and also assist in the enforcement of wage theft. [05:25:48] HB 1092 changes all of that and requires the development of standards that protect workers from indoor and outdoor heat. These standards must include things like access to shade water and rest.

There are exemptions for emergency services, and the standards will be shaped by an advisory panel. that includes workers, employers, agriculture, business, and institutions of higher education.

[05:26:08] I move that we engross the bill and pass it along to his third reading. Delegate from Fauquier, Delegate Weber. Thank you, Mr. Speaker. Will the delegate yield for a question? Will the delegate yield for a question? Mr. Speaker, I yield. He yields. Thank you, Mr. Speaker. Mr. Speaker, I would ask the delegate, could an employer with, say, 20 workers on a job site who fails to document a single training session face $20,000 in statutory damages plus legal fees?

[05:26:39] Delegate from Norfolk, Delegate Hernandez. Mr. Speaker, I would say it's premature to speculate on any of that because the regulations aren't before us. This bill merely directs DOLI and the Safety and Health Codes Board to direct standards to create them. That will be in many stakeholders as part of that process.

[05:26:55] So, yes, we are trying to create a baseline set of protections as it relates to water, shade, and rest because people die every single year in Virginia, and that's what we're trying to prevent. I thank the delegate. Shall the bill be engrossed and passed the third reading? All those in favor say aye.

[05:29:57] Thank you, Mr. Speaker. Eighty-four percent of Virginians support the establishment of a paid family and medical leave program, providing up to 12 weeks of paid leave for hardworking Virginians who need it to care for a loved one, welcome a new baby, or recover from a serious illness or injury.

[05:30:14] We have the opportunity to honor that overwhelming consensus today. Mr. Speaker, it is good for workers, good for families, and good for Virginia's businesses and economies. And I move the bill be engrossed and passed its third reading. The delegate from Scott County, Delegate Kirghoff.

[05:30:33] You yield. The delegate from Roanoke, Delegate McNamara. Thank you, Mr. Speaker. Would the patron yield for a question? Would the patron yield for a question? I yield. He yields. Thank you. Mr. Speaker, I might ask line 352, why is the Commonwealth of Virginia excluded from these requirements?

[05:30:54] The delegate from Prince Wayne. Excuse me. My apologies, Mr. Speaker. Mr. Speaker, I would respond to the delegate that the Commonwealth of Virginia is not excluded from this legislation. In fact, I will gladly search and give you the line number in just a second that lets you know that the Commonwealth of Virginia is directed to establish its own paid film and medical leave program that equates to the exact same thing that we're establishing for 61% of hardworking Virginians.

[05:31:21] Delegate McInerney. Delegate yield for another question. Final question. Would the delegate yield for a final question? I yield. She yields. Thank you. I would ask the Delegate, Mr. Speaker, when I look at the fiscal impact statement, I see the impact through the VEC from the payroll taxes collected.

[05:31:40] I do not see, and I see employment of 315 people to administer the program. I do not see a cost to the Commonwealth of Virginia. Am I missing something? I didn't hear that. You want to speak to the bill?

[05:31:56] The Delegate has the floor. Thank you, Mr. Speaker. So, as the delegates so eloquently stated, 84, 86 percent of the population are in favor of family medical leave bill, as it was described, and it makes it very difficult to talk about a bill like this, Mr. Speaker, but we're not telling the whole story when we talk about what this bill really does.

[05:32:21] So we have a federal standard medical leave program, and it's very, very highly, widely supported. The federal program is unpaid. The Commonwealth of Virginia program is paid at 80% of pay for 12 weeks.

[05:32:40] The federal program requires a person to work for an establishment for 12 months. The state program is very minimal, essentially meeting the requirements for just over two quarters. I think it's either $1,500 or $3,000 worth of earnings, so very, very small.

[05:32:59] The federal program requires 1,250 hours of actual service in the prior year. There's no such requirement for the state program. The federal program requires an employer to have 50 employees. The state program has no minimum number of employees.

[05:33:16] The federal program covers child, spouse, and parent. The state program covers a biological adopted or foster child, a stepchild, a legal ward, a child of a domestic partner, a child to whom a covered individual stands in loco parentis.

[05:33:35] Not sure what that is. A biological adaptive or foster parent, step parent, legal guardian of a covered individual or a covered individual spouse, domestic partner. A person who stood in local parentis, there's that word again, when the covered individual or the covered individual's spouse or domestic partner was a minor child.

[05:33:53] A person who the covered individual is legally married to under the laws of any state or a domestic partner. A grandparent, a grandchild, a sibling, whether biological, foster, adoptive, or step of the covered individual or the covered individual's spouse or domestic partner.

[05:34:11] and this is the best one, or any individual whose close association with a covered individual is the equivalent of a family relationship. This is so broad and the cost is so huge. This, if I look at the fiscal impact statement, it is suggesting a cost, a full rollout of $2.1 billion, 314 employees. Just put that in perspective. I believe the total car tax that are collected by all of our localities is something less than $4 billion.

[05:34:45] This is half the total car tax just off this one bill. And the other part is it's not being paid by the Commonwealth. It's being paid by the employers and the employees. So instead of giving folks money back in their paychecks, we are taking money out of people's paychecks.

[05:35:04] Thank you, Mr. Speaker. Delegate from Scott County, Delegate Kilbo. Mr. Speaker, ladies and gentlemen, I'll speak to the bill. Yeah, the Delegate House, the floor. Mr. Speaker, I have another concern. I believe that here we are asking the commissioner of the VEC, Virginia Employment Commission, to levy the taxes up and down as we need it.

[05:35:32] And I would say to the House, as we go through this bill, as it stands right now, I believe it's unconstitutional under the Marshal, and that was Bob Marshal, when he sued the Northern Virginia Transportation Authority. And there, the court found that we effectively prohibited the delegation of the General Assembly's taxing authority to some other person other than General Assembly whose governing board was not elected by the citizens to serve in that capacity.

[05:36:06] Here, I would say, Mr. Speaker, the commissioner isn't elected. He's levying a tax, so I believe that this would be unconstitutional under some of those findings of the Supreme Court of Virginia. Thank you, Mr. Speaker. Delegate from Patrick County, Delegate Williams.

[05:36:22] Yes, Mr. Speaker, would the patron yield for a question? Would the patron yield for a question? I yield, Mr. Speaker. Delegate yield. Mr. Speaker, originally when I checked out the fiscal impact, I could not find any kind of fiscal impact report, so I kept looking, and I found in the budget there was a line item, item 359, number 3H, And it authorizes a $75 million Treasury loan to implement this bill for the first three-year startup cost.

[05:36:49] I was just wondering if that was still needed or if any kind of substitute might have happened. Delegate from Prince William, Delegate Saul. Thank you, Mr. Speaker. I would respond to the delegate that it is true that there is a loan that is needed for an amount of $75 million to start the program.

[05:37:09] And immediately it will be paid back, as it is outlined in the legislation. The legislation calls for up to six years to pay this back. And as we know, based upon the 14 other states that have passed this legislation, including D.C., that they have been able to pay it back between two and three years.

[05:37:25] And we know that we are more than capable of doing so. Mr. Speaker, I'd also note that it is important for us to be honest when we're talking about what we're discussing here today. when I would encourage everyone to look at the December 15, 2024 report that was provided to Governor Glenn Youngkin, which outlines that this will be an opportunity for businesses and employers to provide a small contribution to ensure that individuals have the resources that they need when life hits them unexpectedly. And when we're talking about that amount, we're talking about the

[05:38:05] amount they'll set by the previous administration as a weekly wage of $1,507 being the max. And when you look at that amount and you base that upon an annual salary, we're talking about less than a cup of coffee. We're talking about $5.43 based upon what was provided by the previous administration. The delegate from Patrick County, you have a follow-up question? Yes, sir. Where the The delegate yield.

[05:38:32] I yield. The delegate yield. So who pays back the $75 million loan? Again, as I previously – oh, I'm sorry. The delegate from Prince William, delegate Sewell. As previously noted, this is a self-funded and self-sustained program.

[05:38:49] Delegate from Patrick County, do you have a further question? Speaking of the bill. Delegate has the floor. Yeah, it's self-funded by the employers and employees in the entire Commonwealth of Virginia. That's who pays back the $75 million loan. It's self-funded by us. Our tax dollars are going to pay for somebody else.

[05:39:05] That's how it's self-funded. Shall the bill be engrossed and pass the third reading? All those in favor say aye. All those opposed, no. The bill's engrossed and passed the third reading. House Bill 1220 at the bottom of page 151 now before you. As legislation seeks to amend the Code of Virginia Lane of photo speed monitoring devices, placement and operation, legislation reporting committee on transportation with amendment nature substitute and the bill's patron, Delegate Delaney, has a floor amendment drawn to that substitute.

[05:39:36] Delegate from Fairfax, Delegate Delaney. Thank you, Mr. Speaker. So first I move the Transportation Committee substitute. Shall the Committee substitute be agreed to? All those in favor say aye. Aye. All those opposed, no. Committee substitute is agreed to the delegate from Fairfax, Delegate Delaney. Thank you, Mr. Speaker. And now I move the floor amendment. Clerk will report a floor amendment.

[05:39:52] Floor amendments offered by Delegate Delaney, line 224, the substitute after P strike the remainder of line 224, all of lines 225 and 226, and through the letter Q on line 227, those amendments are available to the public and to the members here in the chamber.

[05:40:07] Delegate from Fairfax, Delegate Delaney. Thank you, Mr. Speaker. So the floor amendment as offered is identical to the floor amendment that was just adopted for Delegate Siebold's House Bill 994, and so I move those amendments. Shall the floor amendments be agreed to?

[05:40:23] All those in favor say aye. All those opposed, no. Floor amendments agree to the Delegate from Fairfax, Delegate Delaney. Thank you, Mr. Speaker. So the bill before you now is the speed cameras guardrail bill. It has three kind of main pillars that this bill does to rein in some of the issues that have been addressed over speed cameras that we've been tackling for the last few years.

[05:40:45] First, with funding, it directs funds that are collected to go to highway and pedestrian safety use by localities. This eliminates any incentive to police for profit. This bill also corrects some issues with due process. We're having the OES create a universal summons to ensure that all residents of Virginia have equal access to due process, regardless of their zip code.

[05:41:07] And it does also include some safety enhancements, including requiring signs within 100 feet, along with several other kind of more detailed provisions. But those are the main pillars of the bill. I ask that it be the pleasure of the body to engross the bill and pass it on to its third reading. Shall the bill be included? [05:41:23] Thank you, Mr. Speaker. Would the delegate yield for a question? Would the delegate yield for a question? I yield. Thank you, Mr. Speaker. And for clarity for our members, this is the removal of the sovereign immunity part. Mr. Speaker. Delegate from Fairfax.

[05:41:38] Mr. Speaker, I would answer yes. At this time, that particular language has been removed from the bill. I do want to emphasize that we are working on some additional language with localities to ensure that there will be accountability when there is violation of the law, and we're hoping to work that out in the Senate.

[05:41:56] Thank you, Mr. Speaker. Shall the bill be engrossed and pass the third reading? All those in favor say aye. All those opposed, no. The bill is engrossed and passed the third reading. Thank you, Mr. Speaker. Delegate from Newport News, Delegate Price. Yes, thank you. Speaking to the bill, Mr. Speaker.

[05:44:57] The delegate has the floor. Thank you. As someone that lives in Hampton Roads, has lived there my entire life, and is a 10th generation member, I can assure everyone in this room that not everyone was represented in that letter to include members of the Newport News City Council.

[05:45:13] And so I would urge that we support this bill and get those public employees handled and cared for. Thank you, Mr. Speaker. Shall the bill be engrossed and passed the third of the reading? All those in favor, say aye. All those opposed, no. The bill is engrossed and passed the third reading. Over on page 154, we come to House Bill 1266.

[05:48:47] Mr. Speaker, we ask that we bring clarity to this issue because the lack of clarity in this law has led to widespread confusion on the part of law enforcement as well as small businesses. Good actors have been punished while bad actors thrive, operating illegal gaming machines that continue to proliferate across the Commonwealth of Virginia, all while Virginia misses out on critical revenue.

[05:49:14] Today, we just simply ask that we continue the conversation. Please vote yes and engross the bill and move it on to its third reading. Shall the bill be engrossed and passed the third reading? All those

Yes, Mr. Speaker, speaking to the bill. Delegate has the floor. Mr. Speaker, I want to start by saying to the delegate, I have zero intention of harming this bill. I just wanted to take a moment because last year I spoke on the House floor and I said that the original bill that we're now amending, which required doctors to be on site in the emergency department, now we're carving out people to say, no, they don't necessarily have to be on site if this, that, and the other.

[05:50:30] I just thought it was ironic that last year we did this and this year never. Should the bill be engrossing past the third reading? All those in favor say aye. All those opposed, no. [05:53:08] But more than a century after the Civil War, it's time to finalize the process of Reconstruction. We shouldn't be celebrating traitors in Virginia. We shouldn't be celebrating those who killed 360,000 Union soldiers who did it to defend a system of slavery.

[05:53:27] This bill ends the Sons of Confederacy license plates, the Robert E. Lee license plates, and I hope it is the will of the body to engross this bill and pass this to its third reading and finish the work that Gerald Jones started 27 years ago. Delegate has the floor. Thank you Mr. Speaker. HB 1490 will fundamentally modernize how the Commonwealth serves and protects our most vulnerable children. Improving child welfare has always been one of my top legislative priorities and I'm proud to have carried a nearly identical bill this session.

[06:08:49] HB 1490 became the vehicle for systemic change and I am grateful to Delegate Tran for carrying it forward. I strongly support this desperately needed reform and I urge my colleagues on both sides of the aisle to do the same. The need for reform is not a new revelation.

[06:09:05] A 2004 JLARC study recommended that the Department of Social Services evaluate inconsistencies among localities in tracking child protective service referrals and standardize the process. We have known about this problem for over 20 years.

[06:09:20] This legislation represents the culmination of many years of hard work that began in the last administration and included analysis of more than 200 state agencies, stakeholders and policy experts. It is part of a comprehensive effort to reform Virginia's child welfare system.

[06:09:37] This is when government works best. When both parties work together, when one administration builds on the foundation laid by another, putting Virginia's children ahead of partisan interests. Good policy has no party. This bill emerged from bipartisan cooperation, bipartisan expertise, and a shared commitment to protecting children.

[06:09:56] It serves bipartisan support and bipartisan recognition. The reason I'm speaking today to my colleagues is to ask them not only to vote for this legislation tomorrow, but to join as co-patrons. Regardless of who signs on, this bill will protect vulnerable children born to parents struggling with drug and alcohol abuse, poverty, and emotional and mental illness.

[06:10:17] As President Ronald Reagan famously said, "There's no limit to the amount of good you can do if you don't care who gets the credit." I hope we'll remember these words today. These children deserve our united commitment, not our divided politics. Thank you.

[06:10:35] The bill will be engrossed and passed the third reading. All those in favor, say aye. All those opposed, no. The bill is engrossed and passed the third reading. House Bill 1524 is now before you. It seeks to amend and reenact a portion of the Code of Virginia relating to carrying assault firearms in public areas prohibited. Penalty.

[06:10:51] Legislation reporting committee on public safety. Delegate from Fairfax, Delegate McGuire. Mr. Speaker, HB 1524 establishes a statewide prohibition on carrying of assault-style firearms in public streets, sidewalks, parks, right-of-ways, and places open to the public. I hope it's the will of the body to engross the bill and pass it on to its third reading.

[06:11:07] The delegate from Campbell. Delegate is there. Thank you, Mr. Speaker. Question for the patron. Would the delegate yield? I'll yield. Delegate will yield. Thank you, Mr. Speaker. I'm wondering,

does this bill strip the concealed handgun permit exemption, the open carry exemption, and the retired law enforcement exemption for carrying the specified firearms in public?

[06:11:25] Delegate from Fairfax, Delegate McGuire. Mr. Speaker, I would answer the delegate that the provisions in the bill are clearly laid out on what's legal and what's not legal. He was also in committee where we had a robust discussion about this. Thank you. Delegate from Campbell. Delegate's there. Thank you, Mr. Speaker. I was in committee.

[06:11:40] I did read the bill, and I referenced the code. Here's what I'm finding. You're speaking to the bill? Speaking to the bill. Delegate has the floor. Thank you, Mr. Speaker. This bill strips three exemptions. The concealed handgun permit, gone. The open carry protection, gone.

[06:11:56] The retired law enforcement exemption under code 18, gone. So a retired deputy or an off-duty law enforcement officer who spent 25 years protecting Campbell County is now a criminal if he carries a covered firearm inside of a vehicle on a public road to his mama's house. A citizen in Bedford County driving to a hunting plot on a bright sunshiny day after work with a rifle in the cab of his truck, even unloaded and stored away, that's now criminal, even with a concealed carry permit. Now it's a class one misdemeanor with up

[06:12:31] to 12 months in jail. The only thing left is transporting an unloaded securely wrapped firearm to a professional gun range or a gun shop, assuming that either of those are still in existence after this legislative session. That's not right. That's a permission slip.

[06:12:48] This bill doesn't regulate how you carry. It amounts to disarmament for permit holders, for retired law enforcement, for off-duty law enforcement officers, and for every private citizen in the Commonwealth. Bill after bill, session after session, the other side of the aisle is designed to make lawful firearms ownership so legally cumbersome that people simply give up.

[06:13:11] The people this punishes are not criminals. They're the ones who follow every law we've asked them to follow. I urge a no vote. Should the bill be engrossed and passed the third reading?

[06:13:28] All those in favor say aye. All those opposed, no. The bill's engrossed and passed the third reading.
