[02:00:45] Senate has adopted it in its enrolled form, and the enrolled form of SB 342 is what's before you now. - Delic from Fairfax, Delic, Simon. - Thank you, Mr. Speaker. to the bill, Mr. Speaker, this bill, as some of you may or may not remember from session, requires any entity that's seeking to condemn property that's currently in a conservation or open space easement to compensate the locality and, in some cases, the Commonwealth for the value of any tax deferments and tax rebates that had been accrued as a result or lost, revenues that had been lost as a result of the fact that the property was in a conservation or open space easement, doesn't prevent the taking of these properties.

[02:01:23] These properties can still be taken. It just affects how we calculate the compensation because these properties have already been sort of deliberately devalued for a purpose, right? To preserve it as open space, to preserve it for conservation. And so if somebody wants to come through and take it, they shouldn't get to take advantage of that lower price.

[02:01:39] And so this just sets up a way to make sure that we're properly compensating the landowner and the locality who's foregone a lot of revenue and, in some cases, the state government by doing that. [02:02:44] of the members present, which is 67. Okay. Shall the bill be enrolled, notwithstanding the Governor's veto. Madam Clerk, open the roll. It's in roll form, really, but it passes.
