[00:00:00] Chair recognizes the senator from King George. Thank you, Madam President. Speaking to the bill. Senator has the floor. You know, Madam President, my ears went up when I heard the senator say, if you don't want to protect children from being shot in schools, then vote against this bill.

[00:00:21] And I think that's going a little too far. The fact of the matter is, there's a big difference between a judge ordering possession of a home to a spouse after there's been a violent act, which is what the senator from Eastern Fairfax was referring to when he talked about due process, and someone bringing a petition and the individual that's the subject of the order not having the right to appear in court

[00:00:56] and defend themselves. And that's what I object to. And that's what I objected to when this bill was passed before. There is an ex parte hearing, an ex parte hearing, the person who is a subject of the order does not appear until after someone goes into the House most likely law enforcement.

[00:01:18] Will the gentleman yield for a question? Will the Senator from King George yield? I'll yield. Senator from Charlottesville. Will the gentleman agree with me that a temporary detention order can issue from an ex parte hearing? Senator from King George. Madam President, typically yes.

[00:01:37] Senator from Charleston. Madam President, will the gentleman yield for an additional question? I will yield. Will the senator yield? The gentleman would agree with me that a temporary

detention order results in an involuntary commitment and an involuntary commitment can result in an indefinite loss of firearm possession.

[00:01:55] Senator from King George. I think that's accurate. Thank the gentleman. And Madam President, I would say that that is another entirely different burden. somebody has or is temporarily detained as a result of that hearing and it is completely different from someone who makes an allegation I mean in this case you could have a divorced spouse who could make an allegation against you because that's being added and they don't like you so they can make this and then law enforcement comes into your home without your knowledge or

[00:02:30] permission and searches your home and takes your guns and whatever else they see in plain view. It is the lack of due process that so many of us have objected to. Why can't you just give people a hearing in the beginning? Why can't they just have a hearing, have their day in court like we fight for in everything else? Now we have people who can bring this petition that don't even have a relationship with the person they're trying to get in order. I mean, i i get it a licensed clinician of all these people but the bill doesn't say that you have

[00:03:08] to have a relationship with the person it just says they can bring a petition i think it's irresponsible and i hope we don't vote for it the chair recognizes the senior senator from loudon madam president speaking to the bill senator has the floor thank you madam president madam president i raised to speak um in support of this bill um i was a prosecutor in london county Commonwealth Attorney's Office when substantial risk orders became effective here in the Commonwealth of Virginia so I remember them very well as I was the sole and single person designated to prosecute them in Loudoun County. I

[00:03:44] remember at the time I was also sat on our mental health docket and worked extensively with folks in the criminal justice system who you know suffered and struggled with mental health issues and who we diverted on to those dockets to try to deal with them. I also happened to be the person in the Commonwealth Attorney's Office The person at the time who ended up being tasked with responding to phone calls about children who were

[00:04:17] Making threats or of concern to shoot up their schools madam president and so I think in a lot of ways this bill brings home a lot of the a lot of the experience that I had then and then after I left the Commonwealth Attorney's office and maybe the only person this body who had the privilege of sitting as a special justice who presided over a mental health commitment hearings um oh and i forgot when i was a prosecutor i was the person who went to our sheriff's office loudon county sheriff's office and several other police departments and taught on substantial risk orders and taught on the

[00:04:50] senator from charlottesville and um the work that he was doing long before i knew him madam president and madam president i i think it's fair to say that um i have first-hand knowledge of a lot of these issues and um madam president i i whether we're talking about protective orders which are issued on a basis temporarily without a hearing first the emergency protective order then the temporary protective order before we get a hearing for the permanent protective order there's due

[00:05:29] process built in every single step of those cases and those cases kick people out of their homes those cases decide children's custody whether or not one parent can see or talk to their other children at all and those those orders take away people's firearms rights they do all of those things and all of those things can be done without a hearing with the other person present to argue about the facts of that case that happens every single day here in the commonwealth of virginia madam president would the senator

yield for a question will the senator yield my president if i could if i could finish i'm happy to answer every single question that um the senator

[00:06:04] from king george county has the senior senator has the floor thank you madam president um madam president i will also say um with emergency commitment orders um individuals can come on not just law enforcement members of someone's family can come and petition a person ex parte a petition a person and that person's going to be important petition a person for an order that that has that person then transported for a mental health evaluation that same person that we rely on to make these sorts of decisions also makes decisions about whether or not search warrants should issue to go into people's houses that same person makes

[00:06:44] decisions about and and the person for whom the search warrant is being issued against is not present in those hearings that person has the ability to make decisions about whether or not someone is free to be on bond or whether they will be held madam president that person is a magistrate and we trust them to make all kinds of decisions here in the Commonwealth of Virginia and so when hear things like well you know people are going to come in this could be innuendo this could be speculation we just don't know madam president this

[00:07:22] could be out of control it's unclear to me if we're not going to trust them in this situation why it is that we would possibly trust them in all of those other situations or those same types of rights sometimes the exact same rights are on the line and when we talk about lack of due process madam president when I prosecuted substantial risk orders in the Commonwealth Attorney's Office I'm just gonna point to I remember every single time that one happened what a scramble it was. Because the Commonwealth was responsible for not later than 14 days after the issuance of an emergency substantial risk order having a hearing. And for us in the Commonwealth

[00:07:58] Attorney's Office, 14 days was a short turnaround time to get the folks present in court to protect the right to confrontation to make sure that that person had a hearing on whether or not a substantial risk order should be issued or not. 14 days is a very short time. That's shorter than the time for a temporary protection order or the exact time for a temporary protective order where there is no usually confrontational right where the other person is president madam president and so i would suggest not only is are the statistics on substantial risk orders that they are a way to save people's lives yes children at school and other people suicides family members not only have the studies shown that they are an effective way to do that but i would suggest that

[00:08:34] this bill and what substantial risk orders does has at least as many procedural protections as other mechanisms that we have in the commonwealth of virginia madam president madam president with that I'm happy to yield to whatever questions my friend the senator from King George County has senator from King George thank you madam president I would ask the senator I listened to the examples about court granting custody of the home to a spouse temporary detention or in those others but is it not true in a substantial risk order the court is is ordering that the

[00:09:14] individual's home be searched prior to a hearing in court by that individual in order to retrieve their firearms. Senior Senator from Loudoun. Madam President Senator from King George County yes yes yes to the senator I think the answer is generally yes that there will be a effort to remove whatever firearms are at issue in that case i believe um there's another bill that has been passed out by the senate this year that i think does sort of similar things as it relates to making sure that folks who um have

[00:09:53] had a protective order issued against them are otherwise not permitted to have firearms um that people can go in and search for those firearms and i will also add that whenever i prosecuted these types of case my law enforcement officers took it very seriously as they were the best people in these types of very volatile situations to go in, not a family member, not a member of the public to go in and to remove these firearms that were causing the danger and the concern, and so they did it with a tactical ops plan and doing all the things they could to make sure that not only the person who was causing the risk, but the other folks who were potentially at risk were protected as much as we possibly could, Madam President.

[00:10:29] I thank the senator, Madam President. Seeing no other senators who wish to speak, the question is, shall Senate Bill 495 pass? All in favor of that motion will record their votes aye. Those opposed, no.

[00:10:45] Are the senators ready to vote? Have all the senators voted? Do any senators desire to change their vote? The clerk will close the roll. Ayes 21, noes 19. Ayes 21, noes 19.

[00:11:02] Senate Bill 495 passes. Senate Bill 596, a bill relating to contraception, right to contraception, applicability, enforcement. The chair recognizes the senator from Eastern, Prince William.

[00:11:20] Thank you, Madam President. Madam President, I move the bill to pass and speak into the bill. Senator has the floor. Thank you, Madam President. This bill protects the millions of Virginia women who use contraception every day to prevent pregnancy. Following the overturning of Roe vs. Wade, there's significant anxiety that the legal reasoning used to rescind abortion rights could be applied to contraception. There is a growing movement to redefine certain FDA approved contraceptives and without a clear state definition effective birth control methods are vulnerable to future bans. We need an affirmative

[00:11:54] statutory right to contraception in Virginia code to protect that right. This bill explicitly states that a person has an explicit right to obtain contraceptives and that health care providers have the right to provide them if they choose. The FDA defines contraceptives as drugs devices intended for use in the prevention of pregnancy. This bill is about protecting women's health, our future, our fundamental rights, and our

[00:12:27] freedom. The question is, shall Senate Bill 596 pass? All in favor of that motion will record their votes aye. Those opposed no, are the senators ready to vote. Have all the senators voted. Do any senators desire to change their vote? The clerk will close the roll. Ayes 24, noes 15. Ayes 24, noes 15. Senate Bill 596 passes.

[00:13:00] Senate Bill 785. A bill relating to Department of Education, teacher and other instructional personnel and support staff shortages, data collection and reporting reporting a demographic data and reason for exits required the chair recognizes the senator from eastern prince william madam president i move the bill pass and speaking to the bill senator has the floor thank you madam president school divisions across the commonwealth are struggling with staffing shortages but right now we don't have a clear picture of why people are

[00:13:38] leaving while department of education already collects information on vacancies the data does not show how those vacancies came to be particularly whether those exits were voluntary or involuntary this bill simply expands the department's existing vacancy reporting to also require reporting on

employment classification demographics of the existing teacher reason for separation and on whether the separation was voluntary or involuntary the question is shall senate bill 785 pass all in

[00:14:16] favor of that motion will record their votes aye all opposed no are the senators ready to vote have all the senators voted do any senators desire to change their vote the clerk will close the role as 22 nose 18 eyes 22 nose 18 senate bill 785 passes senate bill 803 a bill relating to virginia

[00:14:51] fair housing law determination housing practice quid pro quo harassment senator from charlottesville madam chair move the bill passed and speaking to the bill senator has the floor this bill simply adds quid pro quo harassment as a discriminatory discriminatory housing practice under the virginia fair housing law um quid pro quo harassment is defined in this bit in the bill as harassment because of race, color, religion, national origin, sex, elderliness, familial status, source of funds, sexual orientation, gender identity, military status, or disability.

[00:15:30] I hope you'll vote for the bill. The question is, shall Senate Bill 803 pass? All in favor of that motion will record their votes. Aye. Those opposed. No. Are the senators ready to vote? Have all the senators voted?

[00:15:46] Do any senators desire to change their vote? The clerk will close the roll. Ayes 23, noes 17. Ayes 23, noes 17, Senate bill 803 passes.

[00:16:03] Uncontested calendar, Senate bill is on second reading. The chair recognizes the Senator from Eastern Fairfax. Madam President, I move all the Senate bills on second reading on the uncontested calendar. On pages 14 through 18, Senate bills 122 through 7088 be advanced in engrossment.

[00:16:18] And third reading in a block, after the adoption of any amendments thereto. Any Senator desiring to move the bill from the block, please do so after the clerk has read the number of the bill. The question is, shall all Senate bills now on second reading on the uncontested calendar on pages 14 through 18, Senate Bill 122 through Senate Bill 788 be engrossed in advance to their third reading in the block after the adoption of any amendments thereto that any senator desiring to remove a bill from the block will do so after the clerk has read the number of the bill?

[00:16:53] All in favor of this motion will say aye. Any opposed? No. is agreed to the clerk will read the number of the bills. Senate bill 122 reported from the committee on education and health with a substitute and there is a floor substitute. Senate senior senator from Prince William. Thank you madam president with the recommendation that would be rejected I move the committee substitute. With the recommendation that it be rejected the question is shall the substitute from the committee on education and health be

[00:17:28] agreed to. All in favor of that motion will say aye. Those opposed, no. The no's have it. The substitute is rejected. Senior Senator from Prince William. Thank you, Madam President. Move to waive the reading of the substitute. The question is, shall the reading of the floor substitute be waived? All in favor of that motion will say aye. Those opposed, no. The ayes have it. The reading is waived. Senator from Prince William. Thank you, Madam President. I move the adoption of the floor substitute and speaking to the motion the senator has the floor thank you madam president the substitute picks up some definitions that were left out we're discussed in committee but this bill the substitute

[00:18:07] now cleans it up and consistent with the three items that we talked about in committee around the who is provider on line 68 as well as later on picking up sections that the the senator from Eastern

Western Hanover mentioned about the authorization of school boards to adjust the work schedule so those different definitions are now cleaned up in the substitute and appreciate the body's adoption the question is shall the substitute be agreed to all in favor of the motion we'll say aye any senator from

[00:18:43] arlington my apologies president um i rise to ask the patron the senior senator from prince William, a question. Senator has the floor. Will the Senator yield? I yield. Okay. I would like, if you can explain it, is specifically what is different in this substitute with respect to the substitute that the Committee on Education and Health adopted after an extensive study process and the School Health Services Committee evaluating and digging into the whole diabetes issue over

[00:19:21] the summer. So I'd like to know what specifically is different in your substitute. Senator from Prince William. Thank you Madam President. I'd answer the senator and maybe I was too brief in my descriptions. For instance on line 68 of the substitute we had discussed and agreed in committee that the who by defining who is allowed to do it we agreed to allow and say that a school board employee because we defined it and therefore we strike in the substitute who is a registered nurse, licensed, practitioner, or certified nursing aide.

[00:19:52] By striking that, we actually, we open up the intention of the definitions that we dealt with in subcommittee as well in full committee to resolve that issue, and it's later confined to subsection H on line 77, so it's tying those together provisions to make sure that those individuals are trained and are providing and following through on the prescriber's authorization with the parental consent, and so once we tie all those together, we have what we sort of hashed out and worked out and committed to make sure we're connecting the dots and that tightens up that definition to achieve that purpose Madam President. Senator from Arlington. If those are the only two changes and I

[00:20:29] expect the senator from Prince William County was accurate in his description I don't think they do any harm and I believe the rest of the language is in fact the language that the Committee on Education and Health adopted so I will join the senator in asking that the amendment pass. The question is, shall the floor substitute as explained by the senator from Prince William pass? All in favor of the motion will say aye.

[00:21:00] Any opposed, no. The ayes have it. The floor substitute is agreed to. Senate Bill 225 reported from the Committee on Finance and Appropriations with a substitute, and there is a floor substitute amendment sorry the chair recognizes the senator from Eastern Fairfax thank you madam president I move that the committee subs to be adopted the question is shall the substitute from the committee on finance and appropriations be agreed to all in favor of that motion we'll say aye any opposed no the eyes have it the

[00:21:40] substitute is agreed to senator from Eastern Fairfax present I move to wave reading of the floor moment the question is shall the reading of the floor amendment be waived all in favor of that motion we'll say aye any opposed no the eyes have it the reading is waived senator from fairfax and president move the move the floor amendment speaking to that motion senator has the floor thank you madam president ladies and gentlemen senate this uh legislation has to do with the virginia clean energy innovation bank which was a bill we passed i think last year that was vetoed by governor youngkin and then he basically stole

[00:22:13] the money we appropriated and spent it anyway and this bill basically recreates the bank or creates the bank finally um the um treasury or the treasurer came and said he was included there was a

one sentence in this bill that required him to look at projects and he said he doesn't see a role for himself in this and the sentence basically just takes him out of the process of reviewing these these loans that are made um i think it's a technical non-controversial piece of this would We hope we can adopt the floor amendment.

[00:22:44] The question is, shall the floor amendment be agreed to? All in favor of that motion, we'll say aye. Any opposed, no. The ayes have it. The floor amendment is agreed to. Senator from Eastern Fairfax. Sorry.

[00:23:01] Senate Bill 247, reported from the Committee on Finance and Appropriations. Senate Bill 398, reported from the Committee on Commerce and Labor with amendments, and from the Committee on Finance and Appropriations with a substitute.

[00:23:26] senior senator from loudon thank you madam president madam president with the recommendation we reject the amendment from the committee on commerce and labor i move we accept the amendment the question is with the recommendation that the amendments from the committee on commerce and labor be rejected the question is shall the amendments be agreed to all in favor of that motion we'll say aye those opposed no no the committee amendments are rejected senior senator from loudon thank you madam president madam president i move that we agree to the substitute from the committee on finance and appropriations with the recommendation that the substitute from

[00:24:04] the committee on finance and appropriations be agreed to the question is excuse me the question is shall the substitute from the committee on finance and appropriations be agreed to all in favor of that motion will say aye any opposed no the eyes have it the substitute is agreed to

[00:24:24] Senate Bill 431 reported from the Committee on Rules, Senate Bill 482 reported from the Committee on Rules, Senate Bill 498 reported from the Committee on Rules, Senate Bill 682 reported from the Committee on Rules, Senate Bill 745 reported from the Committee on Commerce and Labor with Substitute and from the Committee on Finance and Appropriations.

[00:25:06] the chair recognizes the junior senator from loudon thank you madam president i move the committee substitute be agreed to the question is shall the substitute from the committee on commerce and labor be agreed to all in favor of that motion we'll say aye any opposed no the ayes have it the substitute is agreed to senate bill 788 reported from the committee on finance and appropriations with the substitute and from the committee on rehabilitation prior to that reported from the committee on rehabilitation and social services with the substitute and then from finance and appropriations with a substitute senior senator from loudon thank you

[00:25:46] madam president madam president with the recommendation we will reject the substitute from the committee on rehabilitation and social services i move the substitute the question is with the recommendation that the substitute from the committee on rehabilitation and social services be rejected the question is shall the substitute be agreed to all in favor of that motion will say aye. Those opposed, no. No. The noes have it. The substitute is rejected. Senior Senator from Loudoun. Thank you, Madam President. Madam President, I move the substitute from the Committee on Finance and Appropriations be agreed to. The question is, shall the substitute from the Committee on Finance and Appropriations be agreed to? All in favor of that motion will say aye.

[00:26:26] Any opposed, no. The ayes have it. The substitute is agreed to. The question is, shall the Senate bills now be engrossed and advanced to their third reading.

[00:26:42] All in favor of that motion will say aye. Those opposed, no. The ayes have it. The bills are engrossed and advanced to their third reading. Senator from Eastern Fairfax. Madam President, I move that all of the Senate bills now on third reading on the uncontested calendars on pages 14 through 18, Senate Bill 122 through Senate Bill 788, that the rules be suspended, and the third constitutional readings of the titles be dispensed with, and speaking to that motion.

[00:27:09] Senator has the floor. Thank you, Madam President. Ladies and gentlemen of the Senate, this is what we talked about the last couple days where we're going to take everything on the second read uncontested and push it all the way through to third. This is the first time we're doing it, so I just thought I ought to note for everybody what we're about to do. If you hear a bill you want pulled out, now's the time to do it.

[00:27:31] Senator, I think we need to first vote on suspending the rules. The question is, shall the rules be suspended and the third reading of the titles of the bills be dispensed with? All in favor of that motion will record their votes aye. Those opposed no, are the senators ready to vote?

[00:27:48] Have all the senators voted? Do any senators desire to change their vote? The clerk will close the roll. Ayes 40, noes 0. Ayes 40, noes 0.

[00:28:03] The reading of the titles is dispensed with. The bills are now before the Senate on final passage. As the senator previously stated the motion, the question is, shall the Senate bills on the uncontested calendar third reading pages 14 through 18 Senate bill 122 through Senate bill 788 now be placed on their final passage in the block with the understanding that any senator desiring to remove a bill from the block will do so After the clerk has read the number of the bill all in favor of that motion will say aye Any opposed no the ayes have it the motion is agreed to the bills are now before us in the block

[00:28:42] the clerk will read the number of the bills. Senate bill 122, Senate bill 225, Senate bill 247, Senate bill 398, Senate bill 431, Senate bill 482. Senator from Roanoke. Thank you madam president. I'd ask that Senate bill 482 come out of the block. Without objection, Senate bill 482 is out of the block. Senate bill 498,

[00:29:20] Senate bill 682 Senate bill 745 Senate bill 788 Senate bill that's it the question is shall the bills in the block that is all bills except for Senate bill 482 on page 17 all in favor of the passage of the bills will record their votes aye those opposed no are the senators ready to vote have all the senators voted. Do any senators desire to change their vote? The clerk will close the roll.

[00:30:00] Ayes 40, no 0. Ayes 40, no 0. The bills in the block pass. Returning to page 17, Senate Bill 482. The chair recognizes the senator from Western Prince William. Thank you, Madam President, Madam President. I move passage of SB 42 and speaking to the motion. Senator has the floor.

[00:30:24] Thank you, Madam President. Madam President, this is a bill that is a study for us to examine and see what our alternatives are that are safe as for VDOT to use a different substance other than just simply rock salt.

[00:30:40] So, I'm going to read to you from a study that just came out in January regarding the Aquan Reservoir where it said a primary source of sodium in tributary floors to the reservoir is the application of

de-icers on impervious surfaces in the watershed.

[00:30:57] Supporting evidence includes one strong spatial and temporal correlations between impervious cover and average stream sodium concentrations in a winter and two extreme spikes and sodium during winter weather conditions, especially in more urbanized and sub watersheds. So with this bill, we will take a look and see at the three things that we look at why we use Roxel right now. One is that it's cost effective. Two is that you get deicing and three you get a little bit of traction. The sand and other stuff is better for traction. There are other alternatives

[00:31:32] for that, and we want to see what criterias they fit. And then finally, Madam President, for friends on the other side of the aisle, if you like fishing, you should like this bill, because this bill will protect fish. If you think that fish should just exist like I do, then you should also vote for this bill, because it's good for fish. So I'm not making a direct play for the senator from King George's vote but kind of you know the chair recognizes the senior senator from Virginia Beach thank you madam president

[00:32:07] will the senator rise for a quick question senator Prince William yes ma'am will the senator yield matter president I'll be delightful to yield to the senior senator from Virginia Beach senator has the floor madam president are we looking at I asked the senator from Prince William are we looking at alternatives like beet juice kind of what what kind of things are we looking at here and I'm just asking for a friend so senator from Prince William so madam president I would tell the senator if you go into the bill text we do actually that's one of the things that came up I'm gonna go ahead and just

[00:32:45] actually pull up the literal text of the bill here and what you'll see is we've got what's actually what's actually in it so we say to treat pre-treat roadways for winter weather and evaluate the potential costs and benefits of such alternatives and conducting the study VDOT shall measure the impact of current treatment and pre-treatment substances on infrastructure in the environment and their corrosive effects on personal property and compare such impacts to the impact of potential alternatives on infrastructure environmental and personal property the study shall consider a variety of alternatives including non-chemical substances and new technologies

[00:33:23] and comparing costs, the potential savings of each. Senator from Virginia Beach. Madam President, I'm not sure if the Senator from Prince William understood my question. I was actually asking what type of alternatives are we looking at?

[00:33:40] Are we looking at things like beet juice, which a lot of states use for pre-treating the roads and things like that? I'm serious. When I asked the question, I was looking at what type of chemicals or what type of products we're looking at so will the senator yield for that question senator has the floor and uh madam president i would tell this i would tell the senator that while we did not delineate every single alternative because we want the folks who are actually going to be conducting this to basically have as wide of a net as possible that was one of the things that came up when i was evaluating you know what what language to actually put in the bill but yes beet juice

[00:34:19] is a thing that has come up before madam president i thank the uh center for the answer and thank thank you madam president madam president i thank my mom senator for the question and with that i am happy to renew uh passage of the bill the question is shall senate bill 482 pass all in favor of that motion will record their votes aye those opposed no are the senators ready to vote have all the senators voted do any senators desire to change their votes the clerk will close the

[00:34:54] roll 39 to 1 senate bill 482 passes 11 floor amendments the chair recognizes the senior

[00:35:36] senator from prince william thank you madame president move the substitute be adopted the question is shall the substitute from the committee on local government be agreed to all in favor of that motion will say aye any opposed no the ayes have it the substitute is agreed to senator from prince william thank you madame president move the wave of the reading of the floor amendments the question is shall the reading of the floor amendments be waived all in favor of that motion will say aye aye any opposed no the ayes have it the reading is waived senator from prince william thank you mad president move the adoption of the floor amendments in a block and speaking to the motion senator has the floor thank you madame president so as you'll see in the the uh amendments

[00:36:15] there are several uh areas of feedback that we've taken from local government to include to make sure uh that there's still a historic district considerations still archaeological considerations and still the exclusion of areas around military bases you know that there's zoning where you have adjacent sort of noise and other buffers that still applies to this bill and so we've taken obviously 11 if not more different considerations and working with local government feedback to as well as some of your concerns and move the amendments adoption and block the question

[00:36:52] is shall the floor amendments be agreed to all in favor of that motion will say aye any opposed no the ayes have it the amendments are agreed to senator from prince william thank you madam president move the bill be engrossed in advance to his third reading the question is shall senate bill 388 now be engrossed in advance to his third reading all in favor of that motion will say aye any opposed no the ayes have it the bill is engrossed and advanced senate bill 94 a bill relating to

[00:37:27] Citing of data centers, property zoned for industrial use, reported from the Committee on Local Government with amendments, reported from the Committee on Finance and Appropriations with a substitute, and there is one floor amendment. Senator from Western Prince William.

[00:37:45] Thank you, Madam President. Madam President, by request of the Senator from Alexandria, can this bill go by for the day? Without objection, Senate Bill 94 goes by for the day. Senate Bill 314, a bill relating to Tourism Improvement District's Transient Occupancy Tax, Arlington County.

[00:38:11] Reported from the Committee on Local Government, and there is a floor substitute, two floor substitutes. Senator from Prince William. From the Committee on Finance and Appropriations. Thank you, Madam President. Can I go by temporarily? Without objection, Senate Bill 314 goes by temporarily.

[00:38:31] Senate Bill 15, a bill relating to driver improvement clinics, motorcycle driver improvement clinics, motorcycle driving improvement clinic fund created, reported from the Committee on Finance and Appropriations with a substitute.

[00:38:50] Senator from Roanoke. Madam President, can that bill go by for the day? Without objection, Senate Bill 15 goes by for the day. Senate Bill 670, a bill relating to automated driving systems, reported from the Committee on Transportation with amendments, reported from the Committee on Finance and Appropriations with a substitute. There are two floor substitutes.

[00:56:02] no. The ayes have it. The bill is engrossed and advanced. Returning to page 20, Senate Bill 314. Senator from Alexandria. Thank you, Madam President.

[00:56:19] First, I'd like to withdraw floor substitute number one. Did the senator say withdraw? Yes, please. Without objection, the floor substitute one is withdrawn. I would now move that we waive the reading of floor substitute number two.

[00:56:35] The question is, shall the reading of the floor substitute number two be waived? All in favor of that motion will say aye. Aye. Any opposed, no. The ayes have it. reading of floor substitute two is waived senator from alexandria thank you madam president i would now move the adoption of floor substitute number two and speaking to that motion senator has the floor um this uh floor substitute accomplishes the same purposes as the original bill the most substantial difference is it moves the authorization of the additional transient occupancy tax to the

[00:57:12] county manager form of government section of the code rather than specifying the name of any particular county making it no longer special legislation it still has the tourism improvement district language that was in the original bill which is key for arlington and anyone else who wants to have the the tourism entity of a locality a divisional locality be the administering non-profit can enter into written agreements with it. So it doesn't substantially change the bills introduced just makes it non-special

[00:57:48] legislation. And with that I renew my motion that we adopt the floor substitute. The question is, shall the floor amendment floor substitute number two be agreed to? All in favor of that motion will say aye. Any opposed, no. The ayes have it. The floor substitute is agreed to. Senator from Alexandria.

[00:59:30] the clerk will close the roll I was 40 no zero eyes 40 no zero the reading of the titles is dispensed with senator from Eastern Fairfax and president move those bills goodbye for the day the question is shall the Senate bills on the uncontested and regular calendars now on their second reading be passed by for the day all in favor of the motion will say aye any opposed no the eyes have it the bills will go by for the day uncontested calendar Senate joint

[01:00:06] resolution on the third reading Senate joint resolution 74 confirming appointments by the governor of certain persons communicated to the General Assembly January the 16th 2026 junior senator from Virginia Beach Thank you, Madam President. I move the resolution be agreed to.

[01:00:28] The question is, "Shall SJR 74 be agreed to?" All in favor of that motion will record their votes "Aye." Those opposed "No." Are the senators ready to vote? Have all the senators voted? Do any senators desire to change their vote?

[01:00:46] The clerk will close the roll. Ayes 40, noes 0. Ayes 40, noes 0. SJR 74 passes. Regular calendar, Senate Joint Resolutions on third reading. Senate Joint Resolution 69, confirming appointments by the governor of certain persons communicated to the General Assembly, October 1, 2025.

[01:01:12] Junior Senator from Virginia Beach. Thank you, Madam President. I move the resolution be agreed to. The question is, shall the resolution be agreed to? All in favor of that motion will record their votes aye. Those opposed no. Are the senators ready to vote?

[01:01:28] Have all the Senators voted. Do any Senators desire to change their vote? The Clerk will close the roll. Ayes 40, noes 0. Ayes 40, noes 0. SJR 69 passes. Senate Joint Resolution 70: Confirming appointments by the Governor of certain persons communicated to the General Assembly August the 13th, 2025. Junior Senator from Virginia Beach. Thank you, Madam President. I move the resolution be agreed to.

[01:01:59] The chair recognizes the senator from Stafford. Thank you. Um, my president is speaking to the resolution The senator has the floor I stand in strong opposition to the removal of members from the previous governor Yonkin's appointments in particular Removal of one of my own constituents Kayla Owen from the Board of Veterans Services The Board of Veterans Services is not merely advisory a name It shapes how the Commonwealth serves those who have worn the uniform and the families Who stand because beside them veterans do not serve alone their spouses

[01:02:36] Myself their children the caregivers and survivors carry the weight of that service every day and their voices must be present at the table Kayla Owen brought that perspective she understands that veterans policy cannot be separated from the needs of veterans families her leadership for the Save the Besnab effort is a clear example at a moment when the Virginia military survivor independence education program was at risk she stepped up not for political gain but to protect gold star families and survivors who rely on that promise from the from the Commonwealth that

[01:03:13] advocacy help preserve educational opportunity for families and have already paid an immeasurable price removing a member who has demonstrated both expertise and a lived experience, sends a troubling message that voices of military families who are optional rather than essential, they are not.

[01:03:37] Effective veteran policy requires input from those who live with its consequences every day. Boards like this should not be grounded and should be grounded continually independent in trust. Arbitrary removals undermine all three of those.

[01:03:52] They weaken institutional knowledge And they discourage most troubling civic participation and erode confidence in a process that should be guided by service and not politics. Our responsibility is to ensure that veterans and their families are represented, respected and heard.

[01:04:11] I urge my colleagues to oppose those removals. And thank you very much, Madam President. The chair, does the senator wish to respond? We have others who wish to speak. Yes, Madam President. Thank you, Madam President.

[01:04:27] junior senator from Virginia Beach speaking to the resolution matter president senator has the floor I would simply like to thank the many people who have courageously stepped up and put their names in to be um to serve our Commonwealth and while we're happy to confirm more than 98 percent of the former governor's appointments unfortunately there were some that we were unable to confirm or reappoint I just want to be clear that we did not remove anyone this is people are up for reappointment and for those viewing at home just also wanted to know these are not lifetime appointments we do our best

[01:05:06] to accommodate governors whether they're incoming or outgoing but nonetheless we have a responsibility in this chamber to vet every single appointee and do our job and so that's what we we have done and again we thank all those members who have served our Commonwealth. Thank you. Senator from Rockingham. Madam President speaking to the resolution. Senator has the floor. Madam President I will not speak long and I understand that these

[01:05:42] amendments have been adopted and I gather that there must be some reason for the removal of some of these I appreciate the junior senator from Virginia Beach's care and going through this but these are some extraordinary steps I've been here 23 years and I can say that I've never seen removals of gubernatorial appointees in any magnitude approaching this and I just went through sent bill or Senate

[01:06:21] Joint Resolution 70. And there are just a few examples that I just would call to the members' attention as being somewhat inexplicable in my mind. And again, I'm sure that there's a reason. But Clean Energy Board, there's a member who was appointed who was not included in the final resolution.

[01:06:47] He was a career member of the Attorney General's Office, somebody who served Republicans and Democrats. One of the leading energy experts in the Commonwealth of Virginia was removed from

that. The Board of Visitors for Richard Bland College, this one I find particularly inexplicable.

[01:07:08] A former member of the staff of Vice President Walter Mondale who served in the Carter administration, a distinguished member of the cabinet of Governor Doug Wilder, and a distinguished government relations official, a well-known Democrat, was removed from the Board of Visitors for Richard Bland College for reasons that I'm sure exist, but I'm not familiar with.

[01:07:41] Board of Visitors of the College of William and Mary, like his politics or not, former majority leader of the United States House of Representatives was removed. I would think that it would be something that any college or university, whatever the political affiliation of that person would be, would be proud to have on there.

[01:08:07] visitors and then the board of juvenile justice there's a member who was removed who is so far as I can tell his only sin is he's you know a career line prosecutor we do try to make sure that that there is diversity of opinion and diversity of backgrounds it is an important characteristic or important qualification to have a prosecutor on those uh boards but uh he was removed as well i i i really

[01:08:42] wish we weren't doing this i recognize it's the prerogative of the majority i think it's an unfortunate road that we are going down and i i hope that we don't do this again in the future does the senator from stafford wish to speak again yes madam president just had a question for the patron on this resolution does the senator from junior senator from virginia beach yield i do not yield the senator does not yield to a question speaking to the resolution

[01:09:19] senator has the yeah just a point of clarification i think i maybe i misunderstood but it it seemed like it was alluded that there were some of these appointees that had been removed was had come to the end of their tenure and just a point of clarification on that line 1005 to 1006 of senate joint resolution 70 that's a new appointee from july 2025 that was scheduled not to end until 2029 so my question is what message are we sending to the spouses of those

[01:09:53] who are wearing the cloth those veterans who are willing to step up and serve and give their voice And I can tell you, as a spouse of a veteran served 31 years in the Marine Corps, it's an important piece. Their voices should be heard.

[01:10:09] And it's a troubling message we send to all of those who are in the Commonwealth, and we're trying to attract them to be the best place, particularly to settle once they finish their term, they separate from the military, that this could happen. Thank you very much, Madam President.

[01:10:27] Seeing no other members who wish to speak, The question is, shall Senate Joint Resolution 70 pass? All in favor of the motion will record their votes aye. Those opposed no. Are the senators ready to vote? Have all the senators voted?

[01:10:43] Do any senators desire to change their vote? The clerk will close the roll. Ayes 40, noes 0. Ayes 40, noes 0. Senate Joint Resolution 70 passes.

[01:11:05] Senate Joint Resolution 71, confirming appointments by the governor of certain persons communicated to the general assembly january 12 2026 the junior senator from virginia beach thank you madam president i move the resolution be agreed to the question is shall senate joint resolution 71 be agreed to all in favor of that motion will record their votes aye those opposed no
