[00:00:00] Chair recognizes the senator from King George. Thank you, Madam President. Speaking to the bill. Senator has the floor. You know, Madam President, my ears went up when I heard the senator say, if you don't want to protect children from being shot in schools, then vote against this bill.

[00:00:20] And I think that's going a little too far. The fact of the matter is, there's a big difference between a judge ordering possession of a home to a spouse after there's been a violent act, which is what the senator from Eastern Fairfax was referring to when he talked about due process, and someone bringing a petition and the individual that's the subject of the order not having the right to appear in court

[00:00:56] and defend themselves. And that's what I object to. And that's what I objected to when this bill was passed before. There is an ex parte hearing. An ex parte hearing. The person who is a subject of the order does not appear until after someone goes into house. Will the gentleman yield for a question? Will the senator from King George yield? I'll yield. Senator from Charlottesville.

[00:01:25] Will the gentleman agree with me that a temporary detention order can issue from an ex parte hearing. Senator from King George. Madam President, typically yes. Senator from Charleston. Would the gentleman yield for an additional question? I will yield. Will the senator yield? Would the gentleman agree with me that the temporary detention order results in an involuntary commitment and an involuntary

commitment can result in an indefinite loss of firearm possession? Senator from King George. I think that's accurate. Thank the gentleman. And Madam President, I would say

[00:02:00] that that is another entirely different burden when somebody has or is temporarily detained as a result of that hearing and it is completely different from someone who makes an allegation I mean in this case you could have a divorced spouse who could make an allegation against you because that's being added and they don't like you so they can make this and then law enforcement comes into your home without your knowledge or permission and searches your home and takes your guns and whatever else they see in plain

[00:02:35] view. It is the lack of due process that so many of us have objected to. Why can't you just give people a hearing in the beginning? Why can't they just have a hearing, have their day in court like we fight for in everything else? Now we have people who can bring this petition that don't even have a relationship with the person they're trying to get in order. I mean, I get it. A licensed clinician, all these people. But the bill doesn't say that you have to have a relationship with

[00:03:10] the person. It just says they can bring a petition. I think it's irresponsible and I hope we don't vote for it. The chair recognizes the senior senator from Loudon. Madam President, speaking to the bill. Senator has the floor. Thank you, Madam President.

[00:03:25] Madam President, I raised to speak in support of this bill. I was a prosecutor in the Loudon County Commonwealth Attorney's Office when substantial risk orders became effective here in the Commonwealth of Virginia, so I remember them very well as I was the sole and single person designated to prosecute them in Loudon County. I remember at the time I was also sat on our mental health document and worked extensively with folks in the criminal justice system who you know suffered and struggled with mental health issues and who we diverted on to those dockets to try to deal with them I also happen to be the person in the

[00:04:04] Commonwealth Attorney's Office the person at the time who ended up being tasked with responding to phone calls about children who were making threats or of concern to shoot up their schools madam president and so I think in a lot of ways this bill brings home a lot of the a lot of the experience that I had then and then after I left the Commonwealth Attorney's Office and maybe the only person this body who had the privilege of sitting as a special justice resided over a mental health commitment hearings oh and I forgot when

[00:04:41] I was a prosecutor I was the person who went to our Sheriff's Office Loudoun County Sheriff's Office and several other police departments and taught on substantial risk orders and taught on the senator from Charlottesville and the work that he was doing long before I knew him, Madam President. And Madam President, I think it's fair to say that I have first-hand knowledge of a lot of these issues. And Madam President, whether we're talking about protective

[00:05:14] orders which are issued on a basis temporarily without a hearing, first the emergency protective order, then the temporary protective order before we get hearing for the permanent protective order. There's due process built in every single step of those cases and those cases kick people out of their homes, those cases decide children's custody, whether or not one parent can see or talk to their other children at all, and those orders take away people's firearms rights. They do all of those things and all of those things can be done without a hearing with the other person present to argue about the facts

[00:05:51] of that case. That happens every single day here in the Commonwealth of Virginia. Madam President, would the senator yield for a question? Madam President. Will the senator yield? Madam President, if I could finish, I'm happy to answer every single question that the senator from King George County has. The senior senator has the floor.

[00:06:07] Thank you, Madam President. Madam President, I will also say, with emergency commitment orders, individuals can come on, not just law enforcement, members of someone's family can come and petition a person, ex parte, a petition a person, and that person's going to be important, petition a person for an order that that has that person then transported for a mental health evaluation that same person that we rely on to make these sorts of decisions also makes decisions about whether or not search warrants should issue to go into people's houses that same person makes decisions about and and the person

[00:06:46] for whom the search warrant is being issued against is not present in those hearings that person has the ability to make decisions about whether or not someone is free to be on bond or whether they will be held madam president that person is a magistrate and we trust them to make all kinds of decisions here in the Commonwealth of Virginia and so when I hear things like well you know people are gonna come in this could be innuendo this could be speculation we just don't know madam president this could be out of control it's unclear to

[00:07:24] me if we're not gonna trust them in this situation why it is that we would possibly trust them in all of those other situations where those same types of rights sometimes the exact same rights are on the line and when we talk about lack of due process madam president when I prosecuted substantial risk orders in the Commonwealth Attorney's Office I'm just gonna point to I remember every single time that one happened what a scramble it was because the Commonwealth was responsible for not later than 14 days after the issuance of an emergency substantial risk order having a hearing and for us in the Commonwealth Attorney's Office 14 days was a short turnaround time to get

[00:08:00] the folks present in court to protect the right to confrontation to make sure that that person had a hearing on whether or not a substantial risk order should be issued or not. 14 days is a very short time. That's shorter than the time for a temporary protection order or the exact time for a temporary protective order where there is no usually confrontational right where the other person is present, Madam President.

[00:08:20] And so I would suggest not only are the statistics on substantial risk orders that they are a way to save people's lives. Yes, children at school and other people, suicides, family members, not only have the studies shown that they are an effective way to do that, but I would suggest that this bill and what substantial risk orders does has at least as many procedural protections as other mechanisms that we have in the Commonwealth of Virginia, Madam President.

[00:08:46] Madam President, with that, I'm happy to yield to whatever questions my friend the senator from King George County has. Senator from King George. Thank you, Madam President. I would ask the senator, I listened to the examples about court granting custody of the home to a spouse, temporary detention order, and those others.

[00:09:05] But is it not true in a substantial risk order The court is ordering that the individual's home be searched prior to a hearing in court by that individual in order to retrieve their firearms.

[00:09:24] Senior Senator from Loudoun. Madam President, Senator from King George County, yes, yes, yes to the senator. I think the answer is generally yes, that there will be an effort to remove whatever firearms are at issue in that case.

[00:09:42] I believe there's another bill that has been passed out by the Senate this year that I think does sort of similar things as it relates to making sure that folks who have had a protective order issued against them are otherwise not permitted to have firearms, that people can go in and search for those firearms.

[00:09:59] And I will also add that whenever I prosecuted these types of case, my law enforcement officers took it very seriously as they were the best people in these types of very volatile situations to go in, not a family member, not a member of the public, to go in and to remove these firearms that were causing the danger and the concern.

[00:10:17] And so they did it with a tactical ops plan and doing all the things they could to make sure that not only the person who was causing the risk, but the other folks who were potentially at risk were protected as much as we possibly could. Madam President. I thank the senator, Madam President.

[00:10:34] Seeing no other senators who wish to speak, the question is, shall Senate Bill 495 pass? in favor of that motion will record their votes aye those opposed no are the senators ready to vote have all the senators voted do any senators desire to change their vote the clerk will close the roll eyes 21 nose 19 eyes 21 nose 19 Senate bill 495 passes Senate bill 596 a bill

[00:11:07] relating to contraception right to contraception applicability enforcement the chair recognizes the senator from Eastern Prince William thank you madam president madam president I move the bill passed and speaking to the bill senator has the floor thank you madam president this bill protects the millions of Virginia women who use contraception every day to prevent pregnancy following the overturning of Roe versus Wade there's significant anxiety that the legal reasoning used to rescind abortion rights could be applied to contraception. There is a growing movement to redefine certain FDA approved

[00:11:44] contraceptives and without a clear state definition effective birth control methods are vulnerable to future bans. We need an affirmative statutory right to contraception in Virginia code to protect that right. This bill explicitly states that a person has an explicit right to obtain contraceptives and that health care providers have the right to provide them if they choose the FDA defines contraceptives as drugs devices intended for use in the prevention of

[00:12:17] pregnancy this bill is about protecting women's health our future our fundamental rights and our freedom the question is shall Senate bill 596 pass all in favor of that motion will record their votes aye those opposed no are the senators ready to vote. Have all the senators voted. Do any senators desire to change their vote?

[00:12:46] The clerk will close the roll. Ayes 24, noes 15. Ayes 24, noes 15. Senate Bill 596 passes. Senate Bill 785. A bill relating to Department of Education, teacher and other instructional personnel and support staff shortages, data collection and reporting, reporting of demographic data and reason for exits required the chair recognizes the senator from

[00:13:22] Eastern Prince William madam president I move the bill passes speaking to the bill senator has the floor thank you madam president school divisions across the Commonwealth are struggling with staffing shortages but right now we don't have a clear picture of why people are leaving while Department

of Education already collects information on vacancies the data does not show how those vacancies came to be, particularly whether those exits were voluntary or involuntary. This bill simply expands the department's existing vacancy reporting to also require reporting on employment classification, demographics of the

[00:14:00] existing teacher, reason for separation, and on whether the separation was voluntary or involuntary. The question is, shall Senate bill 785 pass? All in favor of that motion will record their votes aye all opposed no are the senators ready to vote have all the senators voted do any senators desire to change their vote the clerk will close the role

[00:14:34] as 22 nose 18 eyes 22 nose 18 senate bill 785 passes senate bill 803 a bill relating to virginia fair housing law determination housing practice quid pro quo harassment senator from charlottesville madam chair move the bill passed and speaking to the bill senator has the floor this bill simply adds quid pro quo harassment as a discriminatory discriminatory housing practice under the

[00:15:11] virginia fair housing law quid pro quo harassment is defined in the bill as harassment because of of race, color, religion, national origin, sex, elderliness, familial status, source of funds, sexual orientation, gender identity, military status, or disability.

[00:15:31] I hope you'll vote for the bill. - The question is, shall Senate Bill 803 pass? All in favor of that motion will record their votes. Aye, those opposed, no. Are the senators ready to vote? Have all the senators voted?

[00:15:46] Do any senators desire to change their vote? The clerk will close the roll. Ayes 23, noes 17. Ayes 23, noes 17. Senate Bill 803 passes.

[00:16:03] Uncontested calendar. Senate bill is on second reading. The chair recognizes the senator from Eastern Fairfax. Madam President, I move all the Senate bills on second reading on the uncontested calendar. On pages 14 through 18, Senate Bill 122 through 7088 be advanced to engrossment. And third reading in a block after the adoption of any amendments there to any senator desiring to remove a bill from the block, please do so after the clerk has read.

[00:16:25] number of the resolution or the bill the question is shall all senate bills now on second reading on the uncontested calendar on pages 14 through 18 senate bill 122 through senate bill 788 be engrossed in advance to their third reading in the block after the adoption of any amendments thereto that any senator desiring to remove a bill from the block will do so after the clerk has read the number of the bill. All in favor of this motion, we'll say aye. Any opposed, no. The ayes have it. The motion is agreed to. The clerk will read the number of the bills. Senate Bill 122,

[00:17:03] reporting from the Committee on Education and Health with a substitute, and there is a floor substitute. Senior Senator from Prince William. Thank you, Madam President. With the recommendation that it would be rejected, I move the committee substitute. With the recommendation that it be rejected. The question is, shall the substitute from the Committee on Education and Health be agreed to? All in favor of that motion will say aye.

[00:17:30] Those opposed, no. The no's have it. The substitute is rejected. Senior Senator from Prince William. Thank you, Madam President. I move to waive the reading of the substitute. The question is, shall the reading of the floor substitute be waived?

[00:17:46] All in favor of that motion will say aye. Those opposed, no. The ayes have it. the reading is waived. Senator from Prince William. Thank you, Madam President. I move the adoption of the floor substitute and speaking to the motion. The senator has the floor. Thank you, Madam President. The substitute picks up some definitions that were left out. We're discussed in committee, but this bill, the substitute now cleans it up and consistent with the three items that we talked about in committee around the who is provider on line 68 as well as later on picking up sections that the the senator from Eastern Western Hanover mentioned about the authorization of school boards to

[00:18:25] adjust the work schedule so those different definitions and are now cleaned up in the substitute and appreciate the body's adoption the question is shall the substitute be agreed to all in favor of the motion we'll say aye. Senator from Arlington, my apologies.

[00:18:46] President, I rise to ask the patron, the senior senator from Prince William, a question. Senator has the floor. Will the senator yield? I yield. Okay. I would like, if you can explain it, is specifically what is different in this substitute with respect to the substitute that the Committee on Education and Health adopted after an extensive study process and the School Health Services Committee evaluating and digging into the whole diabetes issue over the summer.

[00:19:22] So I'd like to know what specifically is different in your substitute. Senator from Prince William. Thank you, Madam President. I'd answer this, Senator, and maybe I was too brief in my descriptions. For instance, on line 68 of the substitute, we had discussed and agreed in a committee that the who, by defining who is allowed to do, we agree to allow and say that a school board employee, because we defined it, and therefore we strike in the substitute who is a registered nurse licensed practitioner or certified nursing aide.

[00:19:52] By striking that, we actually, we open up the intention of the definitions that we dealt with in subcommittee as well in full committee to resolve that issue, and it's later confined to subsection H on line 77, so it's tying those together provisions to make sure that those individuals are trained and are providing and following through on the prescribers authorization with the parental consent and so once we tie all those together we have what we sort of hashed out and worked on committed make sure we're connecting the dots and that tightens up that definition to achieve that purpose madam president senator from Arlington if those are the only two

[00:20:28] changes and I expect the senator from Prince William County was accurate in his description I don't think they do any harm and I believe the rest of the language is in fact the language that the Committee on Education and Health adopted so I will join the senator in asking that the amendment pass the question is shall the floor substitute as explained by the senator from Prince William pass all in favor of the motion will say aye any opposed no the ayes

[00:21:02] ayes have it. The floor substitute is agreed to. Senate Bill 225, reported from the Committee on Finance and Appropriations with a substitute, and there is a floor substitute amendment, sorry.

[00:21:17] The chair recognizes the senator from Eastern Fairfax. Thank you, Madam President. I move that the committee substitute be adopted. The question is, shall the substitute from the Committee on finance and appropriations be agreed to. All in favor of that motion will say aye.

[00:21:36] Any opposed, no. The ayes have it. The substitute is agreed to. Senator from Eastern Fairfax. The question is, shall the reading of the floor amendment be waived? All in favor of that motion will say

aye. Any opposed, no. The ayes have it.

[00:21:54] The reading is waived. Senator from Fairfax. I move the floor amendment speaking to that motion. Senator has the floor. Thank you, Madam President. Ladies and gentlemen of the Senate, this legislation has to do with the Virginia Clean Energy Innovation Bank, which was a bill we passed, I think, last year. It was vetoed by Governor Youngkin, and then he basically stole the money we appropriated and spent it anyway.

[00:22:15] And this bill basically recreates the bank, or creates the bank, finally. The treasurer came and said he was included. There was one sentence in this bill that required him to look at projects, and he said he doesn't see a role for himself in this, And the sentence basically just takes him out of the process of reviewing these loans that are made.

[00:22:37] I think it's a technical, non-controversial piece of this. I would hope we can adopt the floor amendment. The question is, shall the floor amendment be agreed to? All in favor of that motion, we'll say aye. Any opposed, no.

[00:22:53] The ayes have it. The floor amendment is agreed to. Senator from Eastern Fairfax. Senate Bill 247, reported from the Committee on Finance and Appropriations.

[00:23:15] Senate Bill 398, reported from the Committee on Commerce and Labor with amendments and from the Committee on Finance and Appropriations with a substitute. Senior Senator from Loudoun. Thank you, Madam President. Madam President, with the recommendation we reject the amendment from the Committee on Commerce and Labor, I move we accept the amendment.

[00:23:35] The question is, with the recommendation that the amendments from the Committee on Commerce and Labor be rejected, the question is, shall the amendments be agreed to? all in favor of that motion we'll say aye those opposed no no the committee amendments are rejected senior senator from Loudoun thank you madam president madam president I move that we agree to the substitute from the committee on finance and appropriations with the recommendation that the substitute from the committee on finance and appropriations be agreed to well the question is excuse me the question is shall the substitute from the committee

[00:24:13] on finance and appropriations be agreed to. All in favor of that motion will say aye. Any opposed, no. The ayes have it. The substitute is agreed to. Senate Bill 431 reported from the Committee on Rules. Senate Bill 482 reported from the Committee on Rules. Senate Bill 498 reported from the

[00:24:49] Committee on Rules. Senate Bill 682 reported from the Committee on Rules. Senate Bill 745 reported from the Committee on Commerce and Labor with a substitute, and from the Committee on Finance and Appropriations.

[00:25:05] The chair recognizes the junior senator from Loudoun. Thank you, Madam President. I move the committee substitute be agreed to. The question is, shall the substitute from the Committee on Commerce and Labor be agreed to? All in favor of that motion, we'll say aye.

[00:25:21] Aye. Any opposed, no. The ayes have it. The substitute is agreed to. Senate Bill 788, reported from the Committee on Finance and Appropriations with a substitute. And from the Committee on Rehabilitation prior to that, reported from the Committee on Rehabilitation and Social Services with a substitute, and then from Finance and Appropriations with a substitute.

[00:25:43] Senior Senator from Loudoun. Thank you, Madam President. Madam President, with the recommendation we reject the substitute from the Committee on Rehabilitation and Social Services, I move the substitute. The question is, with the recommendation that the substitute from the Committee on Rehabilitation and Social Services be rejected, the question is, shall the substitute be agreed to?

[00:26:03] All in favor of that motion will say aye. Those opposed, no. - No. - The nos have it, the substitute is rejected. Senior Senator from Loudoun. - Thank you, Madam President. Madam President, I move the substitute from the Committee on Finance and Appropriations be agreed to. - The question is, shall the substitute from the Committee on Finance and Appropriations be agreed to?

[00:26:22] All in favor of that motion will say aye. Any opposed, no. The ayes have it, the substitute is agreed to. The question is, shall the Senate bills now be engrossed in advance to their third reading all in favor of that motion will say aye those opposed no the eyes have it the bills are engrossed and advanced to their third reading senator from Eastern Fairfax madam president I move that all the Senate bills now on third reading on the uncontested counters on pages 14 through 18 Senate bills 122 through Senate bill 788 that

[00:27:00] the rules be suspended in the third constitutional readings of the titles be dispensed with and speaking to that motion. Senator has the floor. Thank you Madam President. Ladies gentlemen of the Senate this is what we talked about the last couple days where we're going to take everything on the second read uncontested and push it all the way through to third. This is the first time we're doing it so I just thought I ought to note for everybody what we're about to do.

[00:27:23] If you hear a bill you want pulled out now's the time to do it. Senator I think we need to first vote on suspending the rules. The question is shall the rules be suspended in the third reading of the titles of the bills be dispensed with. All in favor of that motion will record their votes.

[00:27:43] Aye. Those opposed, no. Are the senators ready to vote? Have all the senators voted. Do any senators desire to change their vote? The clerk will close the roll. Ayes 40, no, zero. Ayes 40, no, zero. The reading of the titles is dispensed with. The bills are now before the senate on final passage. As the senator previously stated the motion, the question is, shall the senate bills on the uncontested calendar third reading pages 14 through 18 senate bill 122 through senate bill

[00:28:20] 788 now be placed on their final passage in the block with the understanding that any senator desiring to remove a bill from the block will do so after the clerk has read the number of the bill all in favor of aye any opposed no the ayes have it the motion is agreed to the bills are now before is in the block, the clerk will read the number of the bills. Senate Bill 122,

[00:28:43] Senate Bill 225, Senate Bill 247, Senate Bill 398, Senate Bill 431, Senate Bill 482.

[00:29:01] Senator from Roanoke. Thank you, Madam President. I'd ask that Senate Bill 482 come out of the block. Without objection, Senate Bill 482 is out of the block. Senate bill 498 Senate bill 682 Senate bill 745 Senate bill 788 Senate bill that's it the question is shall the bills in the block that is all bills

[00:29:35] except for Senate bill 482 on page 17 all in favor of the passage of the bills will record their votes I those opposed no are the senators ready to vote have all the senators voted do any senators desire to change their vote the clerk will close the roll eyes 40 no zero eyes 40 no zero the bills in the block pass returning to page 17 senate bill 482

[00:30:11] the chair recognizes the senator from western prince william thank you madam president madam president i move passage of s of uh sb 42 and speaking to the motion senator has the floor thank you madam president madam president uh this is a bill that is a study for us to examine and see what our alternatives are that are safe as uh for vdot to use a different substance other than just simply rock salt so i'm going to read to you from study that just came out in january record regarding the aquan reservoir where it said a primary source of sodium and tributary

[00:30:48] floors to the reservoir is the application of de-icers on impervious surfaces in the watershed. Supporting evidence includes one strong spatial and temporal correlations between impervious cover and average stream sodium concentrations in a winter and two extreme spikes in sodium during winter weather conditions especially in more urbanized and sub watersheds. So with this bill We will take a look and see at the three things that we look at why we use Roxel right now.

[00:31:19] One is that it's cost-effective, two is that you get de-icing and three you get a little bit of traction, the sand and other stuff is better for traction. There are other alternatives for that and we want to see what criteria they fit.

[00:31:34] And then finally, Madam President, for friends on the other side of the aisle, if you like fishing, you should like this bill because this bill will protect fish. If you think that fish should just exist like I do, then you should also vote for this bill because it's good for fish. So I'm not making a direct play for the senator from King George's vote, but kind of am. The chair recognizes the senior senator from Virginia Beach. Thank you madam president. Will the senator rise for a

[00:32:07] a quick question. Senator Prince William? Yes ma'am. Will the senator yield? Madam President, I'll be delightful to yield to the senior senator from Virginia Beach. Senator has the floor. Madam President, are we looking at, I asked the senator from Prince William, are we looking at alternatives like beet juice? Kind of what kind of things are we looking at here? And I'm just asking for a friend.

[00:32:32] So, Senator from Prince William. So, Madam President, I would tell the senator if you go into the bill text we do actually that's one of the things that came up i'm going to go ahead and just actually pull up the literal text of the bill here and what you'll see is we've got what's actually uh what's actually in it so we say to treat uh uh pre-treat roadways for winter weather and evaluate the potential cost and benefits of such alternatives and conducting the study vdot shall measure the impact of current treatment and pre-treatment substances on infrastructure in the environment and their corrosive effects on personal property and compare such impacts

[00:33:11] to the impact of potential alternatives on infrastructure environmental and personal property the study shall consider a variety of alternatives including non-chemical substances and new technologies and comparing costs the potential savings of each senator from virginia beach madam president um i'm not sure if the um senator from prince william understood my question I was actually asking, what type of alternatives are we looking at?

[00:33:37] Are we looking at things like beet juice, which a lot of states use for pre-treating the roads and things like that? I'm serious. When I asked the question, I was looking at what type of chemicals or what type of products we're looking at. Will the senator yield for that question?

[00:33:53] Senator has the floor. Madam President, I would tell the senator that while we did not delineate every single alternative, because we want the folks who are actually going to be conducting this to

basically have as wide of a net as possible. That was one of the things that came up when I was evaluating, you know, what language to actually put in the bill. But yes, beet juice is a thing that has come up before.

[00:34:20] Madam President, I thank the senator for the answer. And thank you, Madam President. Madam President, I thank my mom, senator, for the question. And with that, I am happy to renew passage of the bill. The question is, shall Senate Bill 482 pass? All in favor of that motion will record their votes, aye.

[00:34:38] Those opposed, no. Are the senators ready to vote? Have all the senators voted? Do any senators desire to change their votes? The clerk will close the roll.

[00:35:03] 39 to 1, Senate Bill 482 passes.

[00:35:28] 11 floor amendments. The chair recognizes the senior senator from Prince William. Thank you, Madam President. Move the subs to be adopted. the question is shall the substitute from the committee on local government be agreed to all in favor of that motion we'll say aye any opposed no the ayes have it the substitute is agreed to senator from prince william thank you madame president move the wave of the reading of the floor amendments the question is shall the reading of the floor amendments be waived all in favor of that motion we'll say aye any opposed no the ayes have it the reading is waived senator from prince Thank you, Madam President, move the adoption of the floor amendments in a block and speaking

[00:36:08] to the motion. Senator has the floor. Thank you, Madam President. So, as you'll see in the amendments, there are several areas of feedback that we've taken from local government to include to make sure that there's still a historic district considerations, still archeological considerations, and still the exclusion of areas around military bases, you know, that there's zoning where you have adjacent sort of noise and other buffers that still applies to this bill and so we've taken obviously 11, if not more, different considerations and working with local government feedback to as well as some of your concerns and move the

[00:36:46] amendments adoption and block. The question is, shall the floor amendments be agreed to? All in favor of that motion will say aye. Any opposed, no. The ayes have it. The amendments are agreed to. Senator from Prince William. Thank you, Madam President. Move the bill be engrossed in advance to his third reading. The question is, shall Senate Bill 388 now be engrossed and advanced to his third reading? All in favor of that motion will say aye. Any opposed, no. The ayes have it. The bill is engrossed and advanced. Senate Bill 94, a bill relating to siting

[00:56:06] no. The ayes have it. The bill is engrossed and advanced. Returning to page 20, Senate Bill 314. Senator from Alexandria. Thank you, Madam President.

[00:56:23] First, I'd like to withdraw floor substitute number one. Did the senator say withdraw? Yes, please. Without objection, the floor substitute one is withdrawn. I would now move that we waive the reading of floor substitute number two.

[00:56:39] The question is, shall the reading of the floor substitute number two be waived? All in favor of that motion will say aye. Aye. Any opposed, no. The ayes have it. The reading of floor substitute 2 is waived. Senator from Alexandria.

[00:56:56] Thank you, Madam President. I would now move the adoption of floor substitute number 2 in speaking to that motion. Senator has the floor. This floor substitute accomplishes the same purposes as the original bill. The most substantial difference is it moves the authorization of the additional transient occupancy tax to the county manager form of government section of the code rather than specifying the name of any particular county, making it no longer special legislation.

[00:57:28] It still has the Tourism Improvement District language that was in the original bill, which is key for Arlington and anyone else who wants to have the tourism entity of a locality, a divisional locality, be the administering nonprofit, it can enter into written agreements with it. So it doesn't substantially change the bill that's introduced, just makes it non-special legislation. And with that, I renew my motion that we adopt the floor substitute. The question is, shall the floor amendment, floor substitute number two, be agreed to? All in favor of that motion will say aye.

[00:58:07] Any opposed, no. The ayes have it. The floor substitute is agreed to. Senator from Alexandria. Thank you, Madam President. I move the bill to be engrossed and advanced to its third reading. The question is, shall Senate Bill 314 be engrossed and advanced to its third reading?

[00:58:25] All in favor of the motion will say aye. Thank you. Those opposed, no. The ayes have it. The bill is engrossed and advanced. Uncontested calendar. Senate bills on first reading.

[00:58:42] Chair recognizes the Senator from Eastern Fairfax. Madam President, I move the Senate bills on first reading and the uncontested regular calendars, pages 30 to 34, Senate Bills 342 to 531, that the rules be suspended in the first constitutional reading of the titles be dispensed with. The question is, shall the Senate bills, shall the Senate bills on the uncontested, I'm sorry, the question is, shall the rules be suspended in the first constitutional reading of the titles of the Senate bills on the uncontested and regular calendars pages 30 through 39 34 senate bill 342 through senate bill 531 be dispensed with

[01:01:51] communicated to the general assembly august the 13th 2025 junior senator from virginia beach thank you madam madam president i move the resolution be agreed to the chair recognizes the

senator from stafford thank you um madam president speaking to the resolution the senator has the floor i stand in strong opposition to the removal of members from the previous governor youngkins appointments in particular removal of one of my own constituents kayla owen from the board of veteran services the board of veteran service is not merely advisory a name it shapes how

[01:02:28] the commonwealth serves those who have worn the uniform and the families who stand because beside them veterans do not serve alone their spouses including myself their children the caregivers and survivors carry the weight of that service every day and their voices must be present at the table kaila owen brought that perspective she understands that veterans policy cannot be separated from the needs of veterans families her leadership for the save the best effort is a clear example at a moment when the virginia military survivor independence education program was at

[01:03:07] risk she stepped up not for political gain but to protect gold star families and survivors who rely on that promise from the from the commonwealth that advocacy help preserve educational opportunity for families and have already paid an immeasurable price removing a member who has demonstrated both expertise and a lived experience sends a troubling message that voices of military families who are optional rather than essential they are not effective veteran policy requires input from

[01:03:43] those who live with its consequences every day. Boards like this should not be granted and continually should be grounded continually independent and trust. Arbitrary removals undermine all three of those. They weaken institutional knowledge and they discourage most troubling civic participation and erode confidence in a process that should be guided by service and not politics. Our responsibility is to ensure that veterans and their families are are represented, respected, and heard.

[01:04:15] I urge my colleagues to oppose those removals. And thank you very much, Madam President. The chair rec-- does the senator wish to respond? We have others who wish to speak. Yes, Madam President. Thank you, Madam President.

[01:04:31] Junior Senator from Virginia Beach. I'm speaking to the resolution, Madam President. Senator has the floor. I would simply like to thank the many people who have courageously stepped up and put their names in to serve our commonwealth and while we're happy to confirm more than 98 percent of the former governor's appointments unfortunately there were some that we were unable to confirm or reappoint i just want to be clear that we did not remove anyone these people are for reappointment and for those viewing at home just also wanted to know these are not lifetime appointments

[01:05:09] we do our best to accommodate governors whether they're incoming or outgoing but nonetheless we have a responsibility in this chamber to vet every single appointee and do our job and so that's what we we have done and again we thank all those members who have served our commonwealth thank you senator from rockingham madam president speaking to the resolution senator has the floor Madam President, I will not speak long and I understand that these amendments have been

[01:05:48] adopted and I gather that there must be some reason for the removal of some of these. I appreciate the junior senator from Virginia Beach's care in going through this, but these are some extraordinary steps. I've been here 23 years and I can say that I've never seen removals of gubernatorial appointees in any magnitude approaching this.

[01:06:20] And I just went through Senate Bill or Senate Joint Resolution 70, and there are just a few examples that I just would call to the members' attention as being somewhat inexplicable in my mind.

[01:06:38] And, again, I'm sure that there's a reason. But Clean Energy Board, there's a member who was appointed who was not included in the final resolution. He's a career member of the Attorney General's Office, somebody who served Republicans and Democrats.

[01:06:56] One of the leading energy experts in the Commonwealth of Virginia was removed from that. The Board of Visitors for Richard Bland College, this one I find particularly inexplicable. a former member of the staff of Vice President Walter Mondale, who served in the Carter administration, a distinguished member of the cabinet of Governor Doug Wilder, and a distinguished government relations official, a well-known Democrat,

[01:07:33] was removed from the Board of Visitors for Richard Bland College for reasons that, I'm sure exists, but I'm not familiar with. Board of Visitors of the College of William and Mary.

[01:07:48] Like his politics or not, former Majority Leader of the United States House of Representatives was removed. I would think that it would be something that any college or university, whatever the political affiliation of that person would be, would be proud to have on there, Board of Visitors, and then the Board of Juvenile Justice.

[01:08:14] There's a member who was removed who is, so far as I can tell, his only sin is he's a career line prosecutor. We do try to make sure that there is diversity of opinion and diversity of backgrounds.

[01:08:33] It is an important characteristic or important qualification have a prosecutor on those boards but he was removed as well I really wish we weren't doing this I recognize it's the prerogative of the majority I think it's an unfortunate road that we are going down and I hope that we don't do this again in the future does the senator from Stafford wish to speak again yes

[01:09:07] madam president just had a question for the patron on this resolution does the senator from junior senator from Virginia Beach yield I do not you the senator does not yield to a question speaking to the resolution senator has the yeah just a point of clarification I think I maybe I misunderstood but it seemed like it was alluded that there were some of these appointees that had been removed was had come to the end of their tenure and just a point of a clarification on that line 1005 to 1006 of Senate joint resolution 70 that's a

[01:09:45] new appointee from July 2025 that was scheduled not to end until 2029 so my question is what message are we sending to the spouses of those who are wearing the cloth those veterans who are willing to step up and serve and give their voice and I can tell you as the a spouse of a veteran served 31 years in the Marine Corps it's an important piece their voices should be heard and it's a troubling message we send to all of those who are in the commonwealth and we're trying to attract them to be the best place to particularly to settle

[01:10:21] once they finish their term they separate from the military that this could happen thank you very much madam president seeing no other members who wish to speak. The question is, shall Senate Joint Resolution 70 pass? All in favor of the motion will record their votes aye. Those opposed no. Are the senators ready to vote? Have all the senators voted?
