Move the committee substitute the question is shall the substitute from the committee for courts of justice be agreed to all in favor of the motion we'll say aye aye those opposed no the eyes have it the substitute is agreed to senator from

[01:57:19] Fairfax thank you madam president I move the bill pass and speaking to the motion senator has the floor thank you madam president house bill 126 was similar to a portion of Senate bill 83 from the senator from the city of Fair or from the central Fairfax but it was not identical so basically we took the language out of the center from central Fairfax's bill that was related to this concept and stuck it in this one that the DCJS has to adopt standards and

[01:57:56] practices about attorney visits to local regional and community correctional facilities and then we left the language that the house came up with which is all new policy to the body in the bill because the Court of Justice Committee liked what they did with that. And what the House bill does is it requires the board to create standards to ensure access to counsel, including access to their attorneys, paralegals, investigators, other legal staff, or anybody that's held in a local, regional, or community correctional facility, including

[01:58:31] access to in-person access or access via secure and confidential telephone or video conferencing. requires the local regional community correction facilities to have policies and procedures for requesting scheduling access with prompt notifications and um and a requirement that any denial postponement of access to council has to be approved by supervisors basically the idea here is to ensure that people who are incarcerated have adequate access to council and that council can visit these folks conveniently without clear standards at least i've heard from some councils

[01:59:08] It's becoming harder and harder to represent people incarcerated, to actually prepare their defense because it's, in some cases, impossible to get to them in a timely way or to spend enough time with them that you need. But this is sort of a combination of the House and Senate's policy, which I think both moved the ball forward together.

[01:59:26] And I wanted to make sure everybody understood the new policy that was in the bill. Hope we adopt it. The question is, shall House Bill 126 pass? President. Ladies and gentlemen, this bill builds on, this is again new policy, this bill builds on a bill that I carried, I want to say back in 2019, having to do a special immigrant juvenile status, which I passed on a bipartisan basis.

[02:21:32] Basically, it extends the ability of a young person to obtain a finding in a juvenile court so they can go then to obtain what's called special immigrant juvenile status, which is the legal status in the US between the ages of 18 and 21, which is already contemplated by federal law.

[02:21:54] But right now, you can't get that kind of finding in the juvenile court after you turn 18 because of the jurisdiction restrictions of juvenile court, which is what this fixes. So that's what the bill does. Hope we can pass it. The question is, shall House Bill 667 pass?

[02:53:58] Thank you, Madam President. Madam President, members of the body, this is a bill about the parole board that basically does five things. One is it expands the parole board and gives the legislature some of the appointments. Two is it puts some guardrails on who can be picked for the parole board, so for example one person has to be an attorney with significant experience in criminal prosecution. Third, it says there has to be a meaningful opportunity for release and tied to that number four is some transparency measures around the record as a whole but then also individual decisions of the board. They need to they need to kind of write out their

[02:54:36] reasoning and then the fifth thing it does is it creates up a slightly least separate process in a new code section for juvenile offenders and how juvenile offenders go through the parole board process. Those are the five things it does. I renew my motion. The question is, shall House Bill 318 pass? All in favor of the motion will record their votes aye, those opposed no.
