

DIVISION-WIDE LITERACY PLAN

The Loudoun County School Board adopts a division-wide literacy plan for grade levels pre-kindergarten through grade eight as required by the [Virginia Literacy Act](#).

A. Vision for Literacy. The vision for literacy in Loudoun County Public Schools (LCPS) is to provide every student with high-quality instructional materials and evidence-based literacy instruction, aligned with science-based reading research, necessary to become life-long readers, writers, and communicators, while maintaining our uncompromising dedication to deeper learning as outlined in the [LCPS Profile of a Graduate](#).

B. Required Components of the Division-Wide Literacy Plan. The division-wide literacy plan shall follow such template and address how the Loudoun County School Board will align: (a) literacy professional development; (b) core reading and literacy curriculum for students in kindergarten through grade five; and (c) screening, supplemental instruction, and interventions for students in kindergarten through grade eight with evidence-based literacy instruction practices aligned with science-based reading research and how the School Board will collaborate and assist parents in supporting the literacy development of their children.

1. Planning for Comprehensive Communication. To ensure all members of the LCPS community understand what progress towards the LCPS literacy vision looks like as the [Virginia Literacy Act](#) is implemented, a comprehensive communication plan will be developed.

2. Selecting High-Quality Instructional Materials. High-quality instructional materials are an essential component for improving literacy outcomes for students. Evidence-based instructional materials used in core or general instruction, supplemental instruction, intervention services, and intensive services aligned with science-based reading research reflect practices and skills that are critical for learning to read. LCPS will select instructional materials from the VDOE Approved Core Instructional Program Guide, VDOE Approved Supplemental Program Guide, and the VDOE Approved Intervention Instructional Program Guide. LCPS may seek approval from the VDOE.

a. Considerations for Special Populations. LCPS will give considerations for special populations, including gifted learners, English learners, and students with disabilities and note those considerations on the LCPS Division-Wide Literacy Plan.

3. Evidence-Based Literacy Instruction Aligned with Science-Based Reading Research Training for Required Staff. Teachers, reading specialists, special educators, English Learner teachers, and building administrators will engage in professional

DIVISION-WIDE LITERACY PLAN

learning, focused on evidence-based literacy instruction and science-based reading research, which supports the understanding and effective use of high-quality instructional materials and practices. Training in high-quality instructional materials and implementation support should extend beyond the core content area teachers to include EL teachers, gifted teachers, and special education teachers.

4. Monitoring Student Assessment and Progress. LCPS is required to use the Virginia Language and Literacy Screening System (VALLSS) that is provided and approved by the VDOE. In addition, LCPS may also use additional literacy assessment tools, including valid and reliable literacy screeners and diagnostic tools, to monitor student growth and progress.

- a. Reading Intervention Services. LCPS shall provide reading intervention services to students in kindergarten through grade eight who demonstrate substantial deficiencies based on their individual performance on the Standards of Learning reading assessment of a literacy screener provided by the VDOE. Such reading intervention services shall consist of evidence-based literacy instruction aligned with science-based reading research, and be documented for each student in a written student reading plan, consistent with the requirements in subdivision 2 of [Va. Code §22.1-253.13:1 \(H\)](#) and the list developed by the VDOE pursuant to subdivision 1 2 of [Va. Code §22.1-253.13:1](#).

5. Assessing Division-Wide Progress. LCPS will monitor and assess implementation of evidence-based literacy instruction through use of progress monitoring tools and resources to identify trends, strengths, and challenges within a building and throughout the division.

6. Engaging Parents, Caregivers, and Community. LCPS will collaborate with parents, caregivers, and the community to support the literacy development of students.

C. Public Access to the Literacy Plan and Specialist Information.

1. Per the Virginia Literacy Act, LCPS shall post, maintain, and update, as necessary, a copy of the division-wide literacy plan and a job description and contact information for any reading specialist employed by LCPS pursuant to subsection G of [Va. Code § 22.1-253.13:2](#) and for any dyslexia specialist employed by LCPS.

DIVISION-WIDE LITERACY PLAN

2. LCPS will submit its division-wide literacy plan to the VDOE biannually. LCPS staff will review its division-wide literacy plan annually, based on the current VDOE guidance.
