

EMERGENCY FIRST AID, CPR, AED AND DIABETES MANAGEMENT TRAINED AND CERTIFIED PERSONNEL

Loudoun County Public Schools provides training for emergency first aid, Cardiopulmonary Resuscitation (CPR), Automated External Defibrillator (AED), and diabetes management in accordance with code of Virginia [§ 22.1-274](#).

In school buildings with an instructional and administrative staff at least three employees, designated by the principal, will have current certification or training in emergency first aid, cardiopulmonary resuscitation (CPR) and the use of an automated external defibrillator (AED). If one or more students diagnosed as having diabetes attend such school, there shall be at least three employees who have training in the administration of insulin and glucagon.

When a registered nurse or nurse practitioner is available, no employee who is not a registered nurse or nurse practitioner shall assist with the administration of insulin or administer glucagon. Prescriber authorization and parental consent shall be obtained for any employee who is not a registered nurse or nurse practitioner to assist with the administration of insulin and administer glucagon.

In each school building, at least one employee (i) is authorized by a prescriber and has been trained and is certified in the administration of an opioid antagonist, and (ii) at all times during regular school hours, has the means to access any opioid antagonist supply.
