

EMPLOYEE RESPONSIBILITY CONCERNING STUDENT ALCOHOL AND DRUG USAGE

The Loudoun County School Board is committed to maintaining a safe, drug- and alcohol-free learning environment. All LCPS employees have a responsibility to promote a safe and drug- and alcohol-free learning environment that encourages healthy decision-making and resiliency skills.

A. Staff Language and Conduct. All LCPS employees shall discourage and will not condone illegal alcohol or drug use by students at any time or place, including during school-sponsored activities, whether on or off school board property, such as sporting events, award ceremonies, and domestic or international field trips.

B. Reporting Requirements. Any LCPS employee shall notify the principal or their designee or, if the observation occurs off school grounds, other appropriate administrator or their designee, who shall determine the most appropriate course of action, if the employee has reason to believe that a student is under the influence of illegal drugs, illegally possessed or used controlled or synthetic substances, alcohol, or a chemical substance that affects the brain or nervous system, to include stimulants, depressants, hallucinogens, inhalants, opiates, narcotics, amphetamines, barbiturates, marijuana, or anabolic steroids. The student may be referred to the school nurse, or emergency personnel may be contacted for medical evaluation of the student. The principal, administrator, or their respective designee shall notify the parents or guardians of a student who is suspected to be illegally under the influence of drugs or alcohol. A school nurse or Student Assistance Specialist may also be engaged to support the student in accordance with Policy 8240. The principal, administrator, or their respective designee shall immediately report any act that may constitute a criminal offense to the Superintendent or designee and the local law-enforcement agency.

C. Consequences. Any employee who fails to comply with the reporting requirements under this policy may be subject to disciplinary action, up to, and including termination of employment. The principal and/or supervisor is responsible for ensuring all personnel are fully informed of their responsibilities under this policy.
