

EXPUNGING MIDDLE SCHOOL STUDENT GRADES

A. Background and Scope. Middle school students can receive credit towards graduation for high school courses. High school-credited courses available to middle school students are published yearly in the LCPS Program of Studies. These credits count towards the cumulative number of credits in required curricular sequences, as well as towards the total number of credits required for graduation, and calculation of a student's grade point average. Parents/guardians may elect that a high school-credited course (as well as the grade their student earned therein) be omitted or expunged from their student's academic transcript by following the procedure outlined in this policy. This policy only applies to those high school-credited courses students take prior to their promotion from eighth grade. Courses taken in the summer session following a student's promotion from eighth grade are ineligible for expungement/removal from their high school transcript.

B. Expungement Process. Parents/guardians of middle school students enrolled in high school-credited courses shall be provided with notification and directions on how to expunge a high school-credited course by the end of the third quarter each year. If a parent/guardian elects to have a high school-credited course omitted from their student's academic transcript, the required expungement document must be completed and submitted to the middle or high school the student will attend the following school year. Such expungement requests should be submitted to the school's counseling department on or before the end of the first quarter of the school year following completion of the high school-credited course the parent/guardian seeks to expunge from their student's academic transcript—but no later than by the end of the first quarter of their freshman year. The school counseling department receiving such expungement request will complete the process by removing the requested course (as well as the grade the student earned therein) from the student's high school transcript.

C. Effect of an Expungement.

1. All expungements are final and irreversible. Once expunged, no high school-credited course may be reinstated on a student's high school academic transcript.

2. While a high school-credited course, as well as the grade the student earned therein, that is expunged shall be removed from the student's high school transcript, the course and the grade will remain on the student's middle school transcript. However, the grade earned will not be used to compute the student's high school grade point average.

EXPUNGING MIDDLE SCHOOL STUDENT GRADES

3. A student shall not be required to repeat a high school-credited course that has been expunged from their academic transcript unless it is needed to fulfill a graduation requirement or a prerequisite for another course in which the student seeks to enroll. For students seeking to fulfill a graduation requirement or a prerequisite for another course, they can choose to retake the course in the following academic year or during a summer session (if applicable).

4. Students' Standards of Learning (SOL) test scores associated with high school-credited course will not be expunged from student records. When a course with an associated SOL is expunged, any verified credit earned will not be applied towards graduation requirements unless the students retakes the course and earns a passing grade.
